

TECH TIPS

HIGH FLEX

The RIGHT STUFF®

FASTEST RETURN TO SERVICE IN JUST ONE MINUTE!

The Right Stuff® seals instantly, allowing equipment to return to service immediately. No more searching for the right pre-cut gasket or waiting for a gasket to be delivered. The Right Stuff® makes any size or shape gasket instantly and easily fits a variety of applications. Blowout resistant, The Right Stuff® protects against leaks and seepage that result from vibration and thermal expansion. It also resists aging, weathering and thermal cycling without hardening, shrinking or cracking. As well as, resistant to transmission fluid, coolant, oil and other common shop fluids.

Rigorous testing without failure!

The Right Stuff® has been used in vehicle fleets nationwide across a range of operating conditions and has demonstrated leak-free performance over several million miles of heavy commercial testing. Its 0% failure rate reinforces its superiority to OE gaskets.

PTX25229

RIGHT STUFF® 1 MINUTE BLACK

Combines high flexibility with heavy duty oil resistance, ideal for wide bolt patterns.

Top Applications: Oil Pans, Timing Covers, Transmission Pans, Differential Covers.
