

3M Science.
Applied to Life.™

3M Animal Care Solutions

**Quality care
for all sizes.**

We work hard to improve lives, so you can focus on living yours.

In your day-to-day life, there is often not enough time to focus on what matters most to you: Your passions. Your family. Your friends. Your career. Your hobbies.

Fortunately, at 3M you have 89,000 curious minds focused on the task of generating breakthroughs that help make your life better, easier and more complete. We do this by embracing the creativity and risk taking to innovate. Guided by the notion that science is just science ... until you apply it to something.

You may not always realize you are surrounded by 3M science, but you feel the impact of it every day: In safer food. Safer roads. Safer airplanes. In cleaner cities. Cleaner hospitals. Cleaner air and power. Each day, we're building, growing and working together to push the boundaries of innovation again and again. For you. And for those most important to you.

3M Animal Care has been serving the animal health industry for more than four decades, providing high quality products and services to veterinary professionals, trainers and pet owners in the companion animal and equine marketplace.

3M™ Bandaging Tape Products

3M™ Vetrap™ Bandaging Tape

Layers “bond” together to provide support bandages that stay put.

- Bandage sticks to itself (but not to hair)
- Conforms around contours that are difficult to bandage
- Provides support, protection and bandage security
- Allows skin to breathe through cool, lightweight, porous material
- Versatile. Bandaging tape for a broad spectrum of applications — support, compression, catheter tubing and bandage secular
- Ideal overwrap for Gamgee® Highly Absorbent Padding or Animalintex® Poultrice Pad
- Full line of colors and sizes. Multi-color displays and packs

3M™ Wound Management Solutions

Animalintex® Poultice Pad

Animalintex Poultice Pad is a convenient, ready-to-use poultice that comes in a pad. This unique poultice contains a mild antiseptic (boric acid) and tragacanth, a natural poulticing agent.

- Aids in wound healing and relieves minor stiffness and soreness
- Absorbs exudate; provides moist, clean healing site; cushions sore areas
- Can also be used as a dry dressing over open wounds and as a pressure padding
- Indicated for use on horses and dogs. Not recommended for use on cats

Ordering Information

| Cat. No. | Description | Size | Packaging |
|----------|--|--|----------------------------------|
| 1395P | Animalintex® Poultice Pad, Marketed by 3M | 8 in. x 16 in. | 10 Pad/Carton 6 Carton/Case |

Gamgee® Highly Absorbent Padding

Gamgee Highly Absorbent Padding is a 100% cotton roll with a non-woven, durable cover. Used as a wound dressing, protective padding or for warmth/insulation.

- Non-woven, low-adherent cover helps prevent padding from sticking to wound
- Strong (even when wet) protective padding
- Autoclavable: can be cut to size and sterilized (steam or EO)
- Indicated for use on horses, dogs and cats

Ordering Information

3M™ Synthetic Cast Stockinet*

3M Synthetic Cast Stockinet is an underlayment for all standard casting applications; it's suitable for use with all casting materials.

- Improves patient comfort
- 100% knitted polyester stockinet is conformable and easy to use
- Can be used for all standard casting applications and with all casting materials for greater versatility
- Available in a variety of widths to meet your casting needs

Ordering Information

| Cat. No. | Description | Size | Packaging |
|----------|------------------------------|------------|-----------|
| MS01 | 3M™ Synthetic Cast Stockinet | 1" x 25 yd | Case |

3M™ Synthetic Cast Padding*

3M Synthetic Cast Padding is a non-woven polyester padding suitable for use with all casting materials.

- Non-woven polyester padding provides protection and patient comfort, while helping reduce water retention for a drier cast
- Strong and durable padding is easy to tear
- Conforms easily to body contours
- Porous to allow the skin to breathe
- Versatile padding can be used with all casting materials, plaster and synthetic
- Available in a variety of widths to meet your casting needs

3M™ Scotchcast™ Soft Cast Casting Tape*

A fiberglass casting tape that does not set to a completely rigid state, but remains flexible and soft even when it is completely cured. The finished bandage will retain its shape while remain resilient.

- Flexible, soft cast allows for mobility
- Casting tape is easy to apply and remove
- The soft, pliable cast edges improve patient comfort
- Each roll is individually packaged in a sealed, dated pouch for easy inventory and use
- Allows control of the degree of support or protection by varying the number of layers applied

3M™ DuraPrep™ Surgical Solution

(Iodine Povacrylex [0.7% available Iodine] and Isopropyl Alcohol, 74% w/w)

Patient Preoperative Skin Preparation*

DuraPrep Solution eliminates the need for a time-consuming traditional scrub by combining two proven broad-spectrum agents: alcohol for fast kill and fast drying¹ and iodine povacrylex for persistence in a water insoluble film.

- Effective in a single painted coat; nothing is faster, or easier
- Available in a self-contained, unit-dose applicator, DuraPrep Solution's unique application process simplifies skin prep

Ordering Information

| Cat. No. | Description | Size | Packaging |

*Claims about this product are based on testing conducted for human use.

¹In clinical practice, however, DuraPrep solution is flammable until completely dry (minimum of 3 minutes on hairless skin; up to 1 hour in hairy areas).

3M™ Personal Protection Products

3M™ Avagard™

(Chlorhexidine Gluconate 1% Solution and Ethyl Alcohol 61% w/w)

Surgical and Healthcare Personnel Hand Antiseptic with Moisturizers

A scrubless, waterless way to prepare hands for surgery. Rapid and effective, providing proven, persistent antimicrobial protection for up to six hours without water or scrubbing.

- Brushless, waterless and FDA-NDA approved
- Kills 99% of harmful bacteria in 15 seconds (in vitro)¹
- Persistent antimicrobial protection lasts up to 6 hours
- Emollient-rich base helps prevent dry, cracked hands

3M™ Health Care Particulate Respirator and Surgical Mask

Designed to help provide respiratory protection for the wearer. This product has a filter efficiency level of 95% or greater against particulate aerosols free of oil. It is fluid resistant, disposable and may be worn in surgery. It can fit a wide range of face sizes.

This product meets CDC guidelines for Mycobacterium tuberculosis exposure control. As a respirator, it is intended to reduce wearer exposure to certain airborne particles, including those generated by electrocautery, laser surgery and other powered medical instruments. As a surgical mask, it is designed to be fluid resistant to splash and splatter of blood and other infectious materials.

3M™ Safety Products

Disposable Filtering Facepiece Respirators

3M has been a pioneer in the disposable respirator product category. Today our extensive family of disposable respirators (N95 – P100) offers a full range of comfort, convenience and value. Our respirators are designed to help provide quality, reliable-worker respiratory protection. 3M uses a variety of innovative features to help you meet your respiratory protection and comfort needs.

3M™ Particulate Respirator 8210, N95

Designed to help provide comfortable, reliable worker protection against certain non-oil-based particles.

|----------|--|--------------------------|
| 9211+ | 3M™ Aura™ Particulate Respirator 9211+, N95, Three Panel, Individually Packaged, Cool Flow™ Exhalation Valve | 10 Each/Box, 12 Box/Case |

These respirators help protect against certain airborne contaminants. **Misuse may result in sickness or death.** For correct use, consult supervisor and the User Instructions, or call 3M in U.S.A., 1-800-247-3941. In Canada, call Technical Service at 1-800-267-4414.

Important

Before using these respirators, you must determine the following: The type of contaminant(s) for which the respirator is being selected. The concentration level of contaminant(s). And whether the respirator can be properly fitted on the wearer's face. All respirator instructions, warnings, use and time limitations must also be read and understood by the wearer before use. Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CF 1910.134, including training, fit testing and medical evaluation.

3M™ Particulate Respirator 8247, R95, with Nuisance Level Organic Vapor Relief

Designed to help provide comfortable protection against certain oil- and non-oil-based particles, including those present with nuisance levels* of organic vapors, such as solvents, degreasers and/or resins.

Ordering Information

| Cat. No. | Description | Packaging |
|----------|--|-------------------------|
| 8247 | 3M™ Particulate Respirator 8247, R95 Nuisance Level, Organic Vapor Relief | 20 Each/Box, 6 Box/Case |

* Nuisance level refers to concentrations not exceeding OSHA PEL or applicable occupational exposure limit, whichever is lower.

3M™ Particulate Respirator 8271, P95

Designed for use when protection in oil environments is needed.

3M™ Sterilization Assurance Solutions

3M™ Comply™ Steam Chemical Indicator Strips 1250

The Comply 1250 Chemical Indicator is a paper strip 1.5 cm wide by 20 cm long (0.626 inches wide by 8 inches long) printed with a chemical indicator ink that turns from off-white to dark brown/black when exposed to the steam sterilization process. It is designed to indicate whether steam has penetrated to the point of placement of the strip, usually the center of a pack. Each strip is perforated at the center if a shorter internal chemical indicator is preferred. An internal chemical indicator should be used inside each pack to be sterilized.

- Designed to monitor all 121–134°C (250–273° F) gravity and vacuum assisted steam sterilization cycles

Ordering Information

| Cat. No. | Description | Size | Packaging |
|----------|--|------------------------------|------------------------------------|

3M™ Stethoscope Products

Choose the stethoscope that helps you achieve your best.

3M™ Littmann® Stethoscopes feature adjustable headsets with soft-sealing eartips. Select Littmann mechanical stethoscopes are designed with tunable technology to give you the ability to hear different frequency sounds by simply adjusting the pressure applied to the chestpiece. Get the acoustic performance, high quality and comfort you need with a Littmann stethoscope.

**The power to learn,
in the palm of your hand.**

3M™ Littmann® Learning Institute App –
Free with purchase of a 3M™ Littmann® Stethoscope!

Experience the power of tunable technology.

Light contact:

Hold the tunable diaphragm side of the chestpiece with light pressure to hear low frequency sounds.

Firm pressure:

Press the chestpiece a little more firmly to hear higher frequency sounds.
