

Finish Line's Apple-A-Day™ electrolyte is the original apple-flavored source of electrolytes and trace minerals.

Directions: We recommend you mix APPLE-A-DAY™ with the feed. However, APPLE-A-DAY™ will dissolve in water as well. Fresh water and a salt block or loose salt should always be free choice for your horses.

We recommend 1/2 oz daily for horses at rest in a cool environment or for horses performing light work at normal temperatures. Feed 1 oz daily for horses doing moderate work at normal temperatures or light work in hot climates. For heavy training in normal temperatures or moderate work in hot climates feed 1 1/2 oz daily. During intense training in hot, humid climates, feed 2 oz daily. A 1 oz scoop is enclosed.

Ingredients: Salt, potassium chloride, sodium bicarbonate, calcium carbonate, magnesium sulfate, calcium lactate, zinc sulfate, artificial apple flavor, manganese sulfate, ferrous sulfate, copper sulfate, cobalt sulfate.

Apple-A-Day™ Electrolyte
