

Directions:

Do not mix with other toilet chemicals. Drain system and flush tank completely before using TST Max. For best results empty and flush tanks weekly, regardless of level.

Holding tanks: Add one bottle for each 40 gallons. Follow with two quarts of water. For longer holding periods, larger tanks or temperatures over 85 degrees F, add an additional 2 to 4 ounces as needed.

Portable Toilet: Add 2 oz to tank and follow with enough water to cover the bottom.

Grey Water Tank: Add 2 oz through sink and flush with water for 30 seconds.

Recirculating Toilets: Use 1 bottle and follow toilet manufacturers directions.
