PRODUCT #93650

GUARANTEED TO WORK OR YOUR MONEY BACK

BENGAL ULTRADUST® 2X FIRE ANT KILLER

... the Ultimate in Fire Ant Control

How It Works

- UltraDust® contains Deltamethrin, one of the most powerful synthetic pyrethroids available.
- Foraging fire ants track UltraDust® into the mound where it is transferred to other workers and the queen...resulting in total mound kill within 24 hours.
- Advanced formulation has a residual action that will continue to kill for weeks.
- Not affected by dew. Rain will wash the particles into the surface of the mound where it will continue to kill ants as they tunnel out.

How To Use

- Evenly sprinkle one teaspoon over the top of an average size mound (8" - 10").
- Do not water in.
- Apply when temperatures are between 65° - 80°F.
- Treat all colonies in the vicinity.
- Can also be used as a perimeter treatment. Apply along the foundation and crawl spaces where pests are active to help prevent invasion of buildings and structures.

PRODUCT #93650

- **ACTIVE INGREDIENT:**
DELTAMETHRIN - 0.1%
- **EPA REG. NO.:** 68543-26
- **AVAILABLE IN 12 oz. SHAKER CAN**
