

The 30 Minute Kennel!

MIDWEST Homes for Pets P.O. Box 1031 Muncie, Indiana 47308 www.midwesthomes4pets.com

Assembly Instructions for K9 Kennel Model 64-1066

Before you begin

Congratulations on your purchase of a K9 Kennel. Please take time to read and follow these instructions. To make set-up easier, locate a level area to assemble your Kennel. Please remove all components from the carton and arrange them as shown below. All you need for assembly is a pair of pliers or an adjustable wrench. While one person is able to assemble this kennel, some may find it easier if another person assists with "an extra pair of hands."

You will need approximately 30 minutes to fully assemble your K9 Kennel!

Parts Identification

Note: If you discover any parts are missing, or need assistance with assembly, call1-877-550-2612.

	<u>DESCRIPTION</u>	<u>QTY</u>
Α	Scored Eyebolts	8 pieces
В	Nuts	8 pieces
C	Black Plastic Caps	8 pieces
D	Ties Wire	50 pieces
Е	Bent Bottom Rails with ONE Peg	2 pieces
F	Bent Middle Rails with TWO Pegs	2 pieces
G	Bent Top Rails with ONE Peg	2 pieces
Η	Vertical Corner Post 32-1/2"	8 pieces
	Back Filler Rail 71-1/2"	3 pieces
J	Front Filler Rail 41-3/4"	3 pieces

The Front Filler Rails (J) and Corner Posts (H) have one end swaged (reduced). The Back Filler Rails (I) are swaged on both ends.

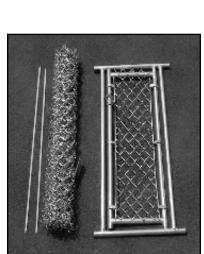

В		lmages may vary from actual product
201	P/S	
30.0	600	
80.0	100	
1903	E O	

Κ	Gate Frame Assembly with Gate	1 piece
L	Chain-link Fabric	1 piece
Μ	Tension Rods 5/16th Dia. Galvanized Rod	2 pieces

NOTE: Pay attention to the labels that are on the various parts of the Kennel frame. Doing so will make the assembly of your K9 Kennel even easier.

Warning: Be sure to remove the collars, tags and leads from your pet before placing it in the Kennel to prevent possible entanglement.

Assembly Instructions

Place the two Bent Bottom Rails (E) marked "Bottom", one Back Filler Rail (I), one Front Filler Rail (J), and the Gate Frame Assembly (K) on the ground as shown at right. The small pegs on the Bent Bottom Rail must point up.

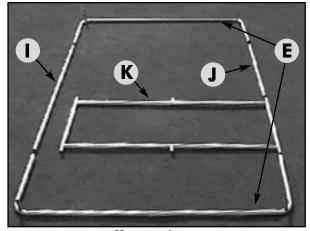

Illustration 1

- Push the swaged ends of the Back Filler Rail into the ends of the Bent Bottom Rails. Push the swaged end of the Front Filler Rail into the end of one of the Bent Bottom Rails. There will be a gap on one of the long sides where the door frame will go. Place the Gate Frame Assembly into this opening and push the pieces together.
- Place one Vertical Corner Post (H) as shown in Illustration 3, swaged end up, on the small peg at each corner of the Bent Bottom Rail.

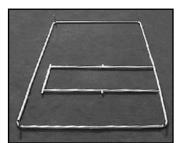

Illustration 2

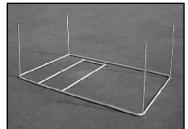

Illustration 3

Mount the Bent Middle Rail (F), large pegs pointing down, on top of the swaged ends of the Vertical Corner Posts as shown in Illustration 4. Slip a Back Filler Rail and a Front Filler Rail in place as you did in Step # 2. Stand the Gate Frame Assembly up and slip the ends of the Bent Middle Rail and the Front Filler Rail over the middle pegs of the Gate Frame Assembly, as shown in Illustration 5. At each corner place a Vertical Corner Posts, swaged end up, on the small peg on top of the Bent Middle Rail. Your Kennel should look like Illustration 6.

Illustration 4

Illustration 5

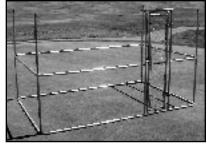

Illustration 6

Now mount the Bent Top Rail (G), large peg down, over the top of the swaged ends of the Vertical Corner Posts as you just did with the Bent Middle Rail. Slip a Back Filler Rail and a Front Filler Rail in place as you did in Step # 2. Slip the ends of the Bent Top Rail and the Front Filler Rail over the top pegs of the Gate Frame Assembly.

At this point, the Kennel frame is complete (see **Illustration 7**).

- Insert the Eyebolts (A), with the eye to the outside, through the eight holes in the Gate Frame Assembly. Start the Nuts (B) onto the end of the bolts about ½" (see Illustration 8).
- Next stand the roll of Chain-link Fabric (L) up against the Gate Frame Assembly. Starting at the top, thread the Tension Rod (M) down through the Chain-link Fabric, being sure to pass through the each Eyebolt and the bottom diamond (see Illustration 9).
- Unroll the Chain-link Fabric around the frame of the Kennel as shown in Illustration 10, being sure to keep tension on the wire by pulling the roll as you unwind it. Occasionally it may be necessary to untangle the knuckles at the top and bottom of the roll. Keeping the tension on the roll tight will help prevent this!
- After you have unrolled the roll of Chain-link Fabric completely around the frame you may find that you have several extra inches of wire that extend past the Eyebolts as shown in Illustration 11. This excess Chain-link Fabric must be removed. Pull the Chain-link Fabric tightly past the Eyebolts to determine where to remove the extra so that the Tension Rod can be installed as in Step # 7.

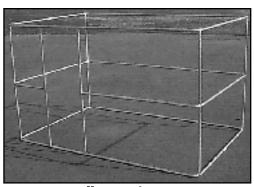

Illustration 7

Illustration 8

Illustration 9

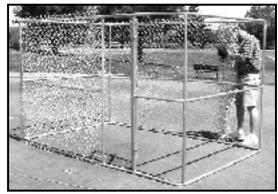

Illustration 10

Illustration 11

To determine how much Chain-link Fabric to remove slide the Tension Rod down through the Chain-link Fabric so that it will pass through the eye of the first Eyebolt. Locate the first knuckle on the gate side of the Tension Rod, as shown in Illustration 13. Pull out the Tension Rod. To remove the excess, unbend the knuckle so that it is straight. Locate the corresponding knuckle at the bottom of the Chain-link Fabric. Unbend that loop. This single "picket" can now be removed. Lift and rotate the picket until it is free of the roll as shown in

Illustration 13

Illustration 14

Now insert the Tension Rod down through the Chain-link Fabric and the Eyebolts as you did in Step # 7. Facing the Kennel, go to the top, left Eyebolt. Push the "eye" firmly against the Frame. Tighten the Nut (as shown in Illustration 15), past the scored area on the threads. Move down to the next Eyebolt and repeat. Pulling the Tension Rod against the Gate Frame as you go, proceed around the Gate Frame Assembly until all eight Eyebolts have been tightened. This step will tighten the fit of the Chain-link Fabric around the frame. Use you pliers to grip the exposed threads and snap off the excess at the scored area of the bolt. Finish each nut with a Plastic Cap (C).

Illustration 15

Starting at the Gate Frame Assembly, install Tie Wires (D) every two feet, (more often for larger dog breeds) securing the Chain-link Fabric to the top rail of the Kennel. Turn the Kennel over and install the Tie Wires around the bottom rail of the Kennel every two feet (more often for larger dog breeds). Flip the Kennel back over

Illustration 16

NOTE: Please remember to allow a period of adjustment for your pet if they have not been kept in a kennel before. Animals that have never been penned may initially show undesirable changes in behavior or attitude. Consult your veterinarian or pet professional if this should happen.

LIMITED MANUFACTURERS WARRANTY

- 1. For one (1) year from the date of original purchase, MIDWEST Homes For Pets ("MIDWEST") warrants to the purchaser of this pet home that, should it prove defective by reason of improper workmanship and/or material, MIDWEST will repair or replace, at its option, any defective part of the pet home, without charge for the part or for shipping. Replacement parts are warranted for the remainder of the original period.
- 2. **THIS WARRANTY DOES NOT COVER** defects in the wire enclosure caused by any animal, any physical abuse to or misuse of the pet home, any damage caused by the original purchaser or any third party, or any defects arising or discovered more than one (1) year from the original retail purchase date.

3. STEPS TO OBTAIN WARRANTY SERVICE:

Illustration 14.

- A. The purchaser must call MIDWEST's HELPLINE, 800-428-8560, to report the alleged defect to a customer service representative or obtain missing parts.

 B. The customer service representative will determine if the defect is covered by this warranty, and if it is, will authorize and instruct the purchaser in how to obtain corrective action.
- C. MIDWEST may require the purchaser to present the sales receipt or other proof of purchase prior to authorizing any return or replacement. No returns or replacements will be permitted without proper authorization. If a return or replacement is authorized, you may be requested to return the item to MIDWEST or to make the item available for pick-up by MIDWEST.
- 4. ANY EXPRESS WARRANTY NOT PROVIDED IN THIS WARRANTY DOCUMENT, AND ANY REMEDY FOR BREACH OF CONTRACT THAT, BUT FOR THIS PROVISION, MIGHT ARISE BY IMPLICATION OR OPERATION OF LAW, IS HEREBY EXCLUDED AND DISCLAIMED. THE IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR ANY PARTICULAR PURPOSE ARE EXPRESSLY LIMITED TO A TERM OF ONE (1) YEAR.

SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

5. UNDER NO CIRCUMSTANCES SHALL MIDWEST BE LIABLE TO PURCHASER OR ANY OTHER PERSON OR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT OR OTHERWISE, SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATIONS OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSION MAY NOT APPLY TO YOU.

MDWEST HOMES FOR PETS

6. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
