

75AG-5

**KID & DOG
RESISTANT STATION**

RAT KILLER II

FIRST AID
HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

If Swallowed:

- Call a poison control center, doctor, or 1-877-454-2494 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

TREATMENT FOR PET POISONING
If an animal eats this bait, call a veterinarian, or 1-877-454-2494 at once.

NOTE TO PHYSICIAN OR VETERINARIAN
Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of central edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroids.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets.

Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, or using tobacco. Any person who handles bait, refills a station, or retrieves carcasses or unused bait must wear waterproof gloves.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish, birds and other wildlife. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:
This bait station may be used in areas accessible to children and pets, consistent with all use restrictions and other requirements indicated on this label. Do not apply further than 50 feet from home or building.

For control only of Norway rats, roof rats and house mice, this bait station can only be refilled with the block bait sold with this station, TOMCAT® Rat Killer II must be used and the requirements indicated on this label. Do not place this bait station or stored block bait in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food. Store bait block refills out of reach of children and pets.

SELECTION OF TREATMENT AREAS:
Determine areas where rats and/or house mice will most likely find and consume the bait. Generally, these areas are beside burrows, along walls, by grouted openings, in corners and concealed places.

APPLICATION DIRECTIONS:
While wearing waterproof gloves, place 1 or 2 blocks of bait in the bait station. Replace each block as necessary. See additional GRAPHICS AND TEXT. Place the bait station at point of highest activity beside burrows, along a wall or in corners where signs of rats or house mice have been seen. If additional units are purchased, place bait stations at 15- to 30-foot intervals. Maintain a constant supply of fresh bait for 10 days or until there no longer are fresh signs of rat or house mouse activity in infested areas. While wearing waterproof gloves, replace bait in bait station if bait has been consumed or contaminated and rats and/or house mice still are using the bait station.

Follow-up:
Wearing waterproof gloves, collect and properly dispose of any leftover bait or carcasses. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

Product Information:

- Stations can be used horizontally or vertically.
- Rats and/or house mice may eat a small amount of bait and leave the bait station. Rats and/or house mice will cease feeding after consuming a toxic dose. You likely will not find a dead rat or mouse in the bait station.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal and Container Handling: Nonrefillable Container. Do not reuse or refill container except as described in the Directions For Use.

If Empty: Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
