

5

REASONS TO USE ANTHRACITE

1

ANTHRACITE BURNS HOTTER THAN GAS, OIL, PELLETS OR WOOD.
Anthracite produces an even heat and a higher level of BTU's compared to other fuels.

2

ANTHRACITE BURNS VERY CLEAN WITH VIRTUALLY NO SMOKE OR PARTICULATE EMISSIONS.
Anthracite emissions are below the EPA's minimum/maximum requirements making anthracite one of the cleanest burning heating fuels available.

3

ANTHRACITE IS ONE OF THE MOST ECONOMICAL HEATING FUEL SOURCES AVAILABLE.
The cost per million BTUs for anthracite stoves is lower than gas, oil, electric, wood or pellet stoves.
**Visit our website to see the "Fuel Cost Calculator" for comparison.*

4

THERE IS NO RISK OF A CHIMNEY FIRE DUE TO CREOSOTE BUILD UP AS ANTHRACITE DOES NOT PRODUCE ANY CREOSOTE.
There are no worries about gas or fuel leaks and anthracite is ideal for long-term storage.

5

IT COMES IN CONVENIENT 40 POUND HANDLED BAGS MAKING IT EASY TO CARRY.
Anthracite stoves require less maintenance and have fewer parts to replace than other stove types.
