PRODUCT CATALOG

We not only have a passion for quality products, but we have a passion for our pets.

At Tomlyn, a division of Vetoquinol USA, it's more than just a love for pets that unites us. Our team is made up of individuals whose personalities and talents come together and form a family of professionals. We are always working to make things better for customers and pets everywhere.

The Tomlyn Vision

Your pets deserve veterinarian-recommended formulas wherever you choose to shop — neighborhood specialty stores, online stores, or retail outlets.

At Tomlyn, we only use quality formulations and proven, scientific knowledge to drive our uncompromising ethical approach, which uses wholesome ingredients to provide real benefits for pets.

Science-backed products

We are proud that Tomlyn products have helped millions of pets feel better and stay healthy. Whether you're buying Nutri-Cal® High Calorie Nutritional Gel or Laxatone® Hairball Remedy, feel confident your pets are getting well-researched, quality ingredients.

High quality standards

These are the products we buy for our own pets. Tomlyn products are made in the United States and Canada, which helps ensure the highest quality production. Expect the best, especially when you're counting on a nutritional supplement to help your dog or cat.

Our History

Our story began when an entrepreneurial veterinarian, Tom, and his wife, Lyn, decided to create a line of nutritional supplements, dermatological treatments and shampoos for dogs and cats that would outperform everything else available. They created Tomlyn. Today, Tomlyn is backed by Vetoquinol, an independent, family-owned business operating worldwide and focused exclusively on products for animals.
