

## KENNEL ACCESSORIES

- A** 1125564 - Kennel Kit
- B** 1125416 - Dog House
- C** 1125411 Rotating Feeder
- D** 1125412 - Platform & Ramp

- E** 1125414 - Wind Wall
- F** 1125415 - Sun Screen
- G** 1125407 - Roof Cover

By removing the Kennel Kit panels, a Dog House can easily be added outside the kennel. This feature frees up valuable real estate inside the kennel, providing more room for your pet.

The Wind Wall panel and Sun Screen provide additional protection for your pet. Designed to be modular, each panel is 5 ft. x 6 ft. (1.524 m x 1.829 m) tall, allowing you to customize in one or more sections.

Feed your pet without entering the kennel by adding the Rotating Feeder. The feeder bolts to the Kennel Kit accessory panel for easy installation and holds (2) 9.75 in. (24.765 cm) diameter buckets.

Dogs love to view their domain from an elevated position. The Platform & Ramp allows a safe, elevated position for your pet. The platform attaches to the Kennel Kit standard panels for stability.

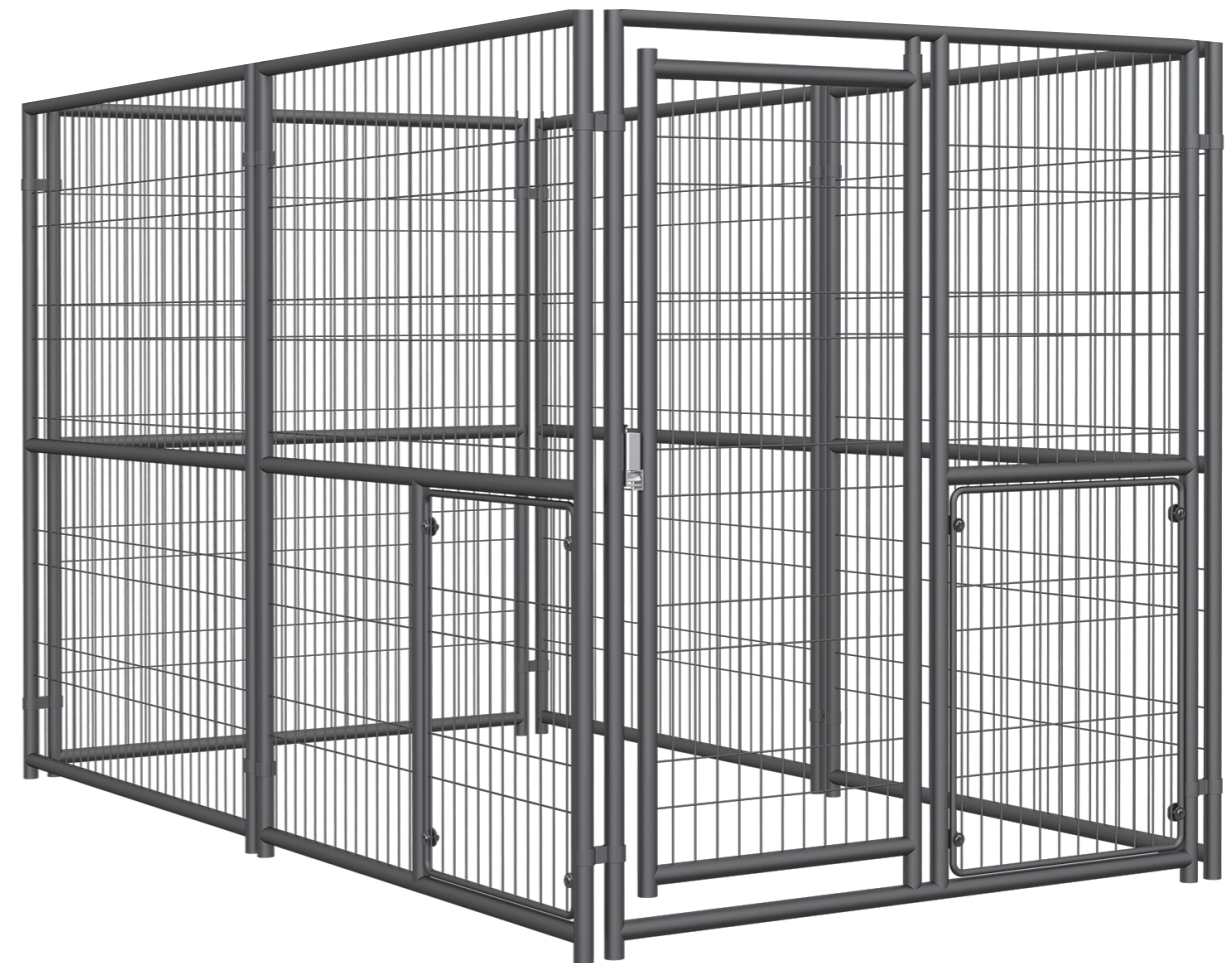

Pets need basic protection from the elements when left outdoors for extended lengths of time. The 5 ft. x 10 ft. (1.524 m x 3.048 m) Roof Cover comes complete with tubular frame and heavy duty fabric. Easy to install and protects pet from rain, snow and sun.

### TIPS BEFORE YOU START!

1. Ensure that all parts are present prior to assembly.
2. Check all packing material carefully before discarding, as some parts may be encased in the packing material.
3. For ease and speed of assembly, it is recommended that prior to each step all required parts are identified.
4. Ensure that you have sufficient space and people to assemble product safely.
5. During assembly take care not to over-tighten any fittings, as this may damage the product.
6. Please keep this instruction manual for future reference.

### WARNING:

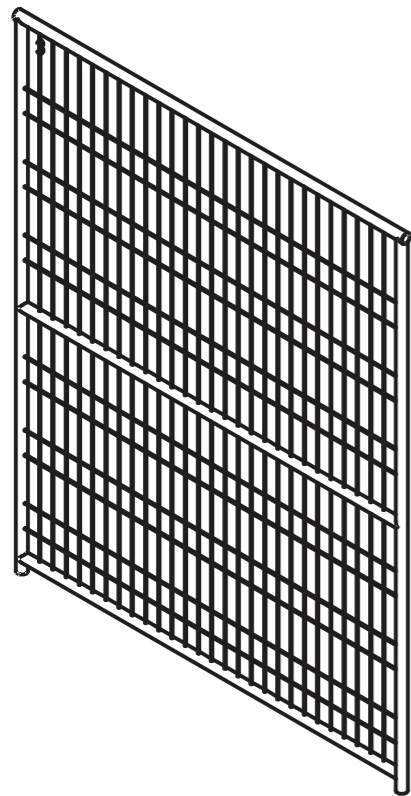

This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

### WARNING:

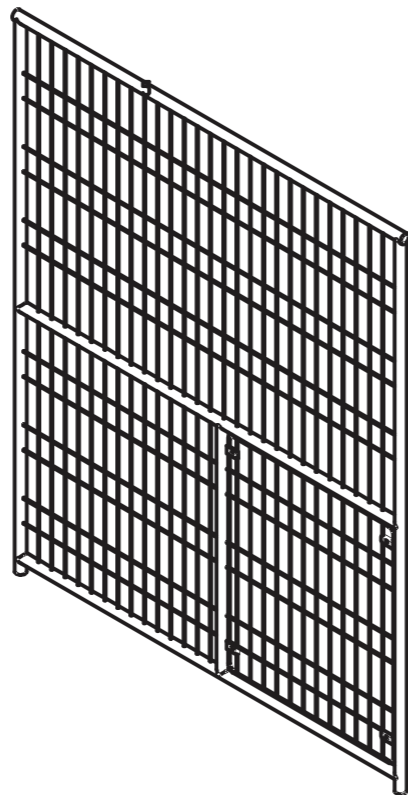

Contains lead. May be harmful if eaten or chewed. Complies with federal standards.

PARTS LIST

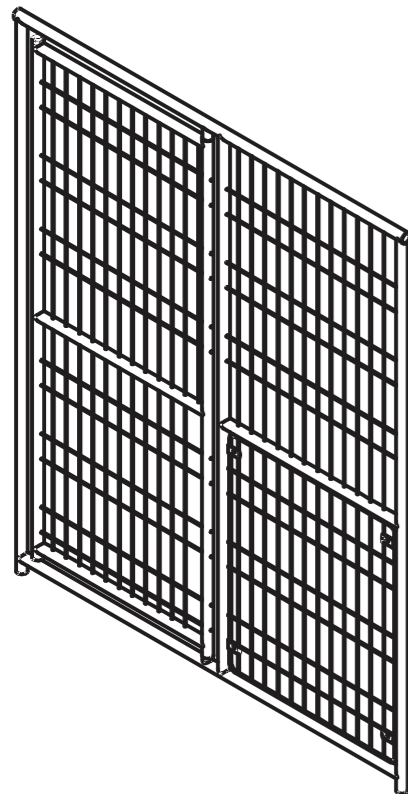

Ⓐ 4 x Standard Panel

Ⓑ 1 x Accessory Panel

Ⓒ 1 x Door Panel (Pre-attached latch)

Ⓓ 12 Sets x Clamp With Bolt, Washer and Nut (Attached to panel for shipping)

Tools: Ratchet and 17mm size socket / wrench (not included)

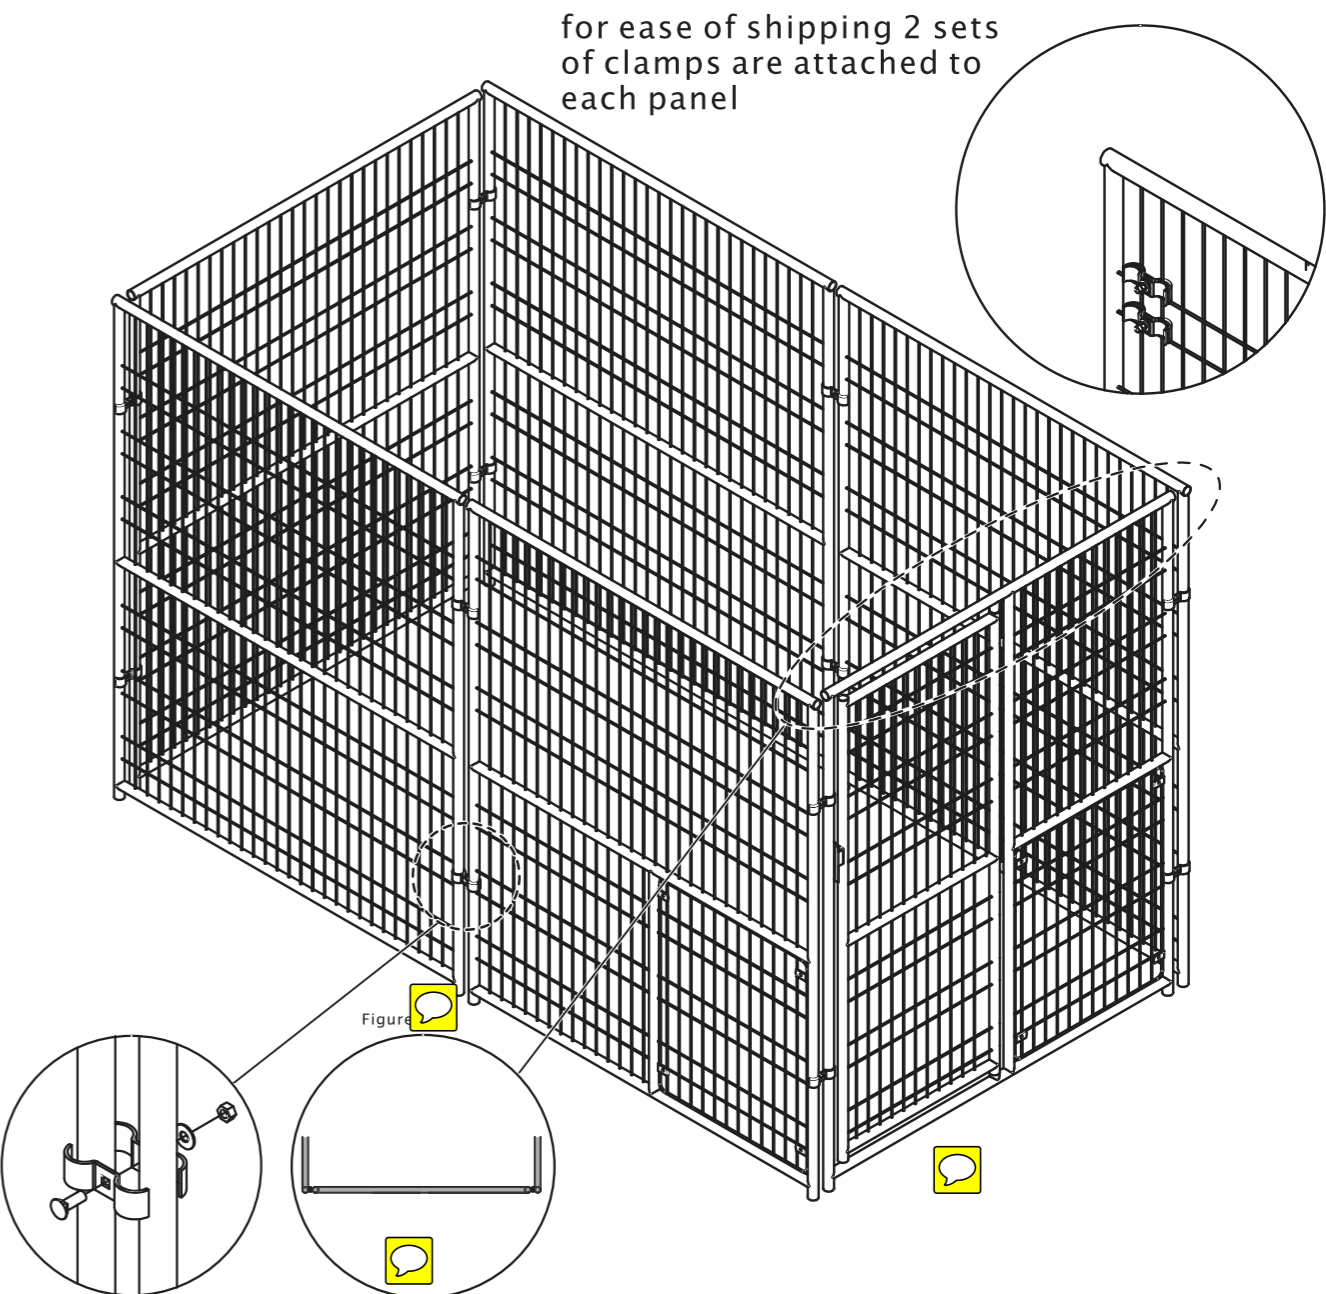

ASSEMBLY INSTRUCTIONS

Note: It is recommended that the kennel be set up on a level area, this will allow the unit and any accessories to work best

Note: Your new Retriever kennel has been designed to be modular and can be set up in many configurations, figure 1 shows one of the many configurations possible. the door panel and accessory panel can be placed in any location, and can be rotated 180 degrees (left to right) to allow the opening to be on the left or right of the panel.

Note: the panels must be configured as shown in figure 2 if the Retriever roof kit is being used.

Note: the accessory panel has a removable smaller panel that is secured in place with four (4) nuts and bolts allowing you to attach the Retriever dog house or the Retriever feeding station.

**NOTE:** Be sure to position the front and back panels in the orientation shown in fig. 1. The front and back panels should be positioned to the in-side of the side panels. This allows the Retriever accessory roof kit to be installed properly if purchased.
