

Stall DRY®

Absorbent & Deodorizer

Diatomaceous Earth & Calcium Montmorillonite, the SAFE Solution for Stall Management!

Safe for Large & Small Animals

Safe to use on Dirt, Wood, Concrete, Metal and Rubber Mats

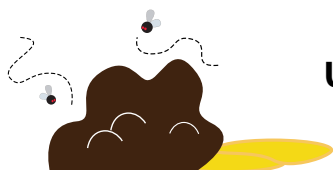

Aids in Composting

Eliminate Harmful Effects of Ammonia

Fewer Flies

Save Money on Bedding

Absorbs up to 125% of its Weight in Liquid

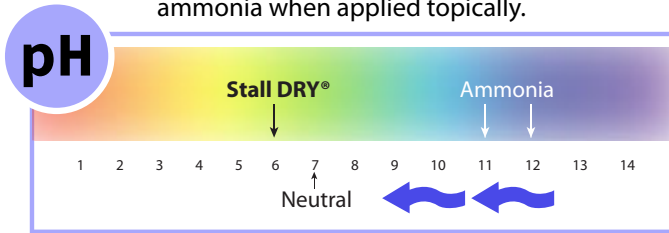

Ammonia from Urine and Manure is a Health Risk!

Studies have concluded that even low levels of ammonia can cause stress on animals' respiratory systems putting them at risk for pneumonia and other serious illnesses. For the comfort and health of your animals it is important to eliminate these risks.

Neutralizes pH Levels

Stall DRY's slightly acidic pH helps to neutralize ammonia. The pH scale ranges from 0 to 14 with a pH of 7 being neutral. With a pH of 6 Stall DRY® is able to reduce ammonia when applied topically.

To Help Reduce Ammonia

- Suitable Bedding
- Stall Amendment
- Increase Turn-out Time
- Ventilation
- Proper Diet
- Clean Stalls Regularly

Choose Bedding Wisely There are many bedding options to choose from. Features to look for include good quality, high absorbency, easy to clean, low dust, availability, reasonable cost and comfort.

Stall DRY® Extends Life of Bedding

Stalls, Barns, Trailers, Kennels, Paddocks and Pens & So Much More!

Application Instructions:

- Apply approximately 4-5 lbs of **Stall DRY**® over a 10' x 10' stall (area).
- Place your usual bedding over the **Stall DRY**®.
- For daily maintenance apply ½-1 lbs of **Stall DRY**® over the wet bedding only, then go pick out the manure.
- With your muck fork toss the bedding where you applied **Stall DRY**®.

Pet Bedding:

- Cages: Apply 2-3 inches of **Stall DRY**® evenly to a clean surface area. To refresh area remove solid waste, stir up litter and sprinkle a layer of **Stall DRY**® over area.
- To refresh bedding, thoroughly sprinkle over bedding surface.
- Sprinkle over surface area after changing or topping off your favorite pet litter.

Cat Litter:

- Fill a clean, dry litter box with approximately 2 - 3 inches of **Stall DRY**®.
- Remove waste clumps daily with a slotted scoop.
- Add fresh **Stall DRY**® to litter box as required to keep litter box comfortably full.
- Completely empty and wash litter box once a month.

NEUTRALIZES AMMONIA

Drier environment reduces the growth of bacteria

ABSORBS MOISTURE

Absorbs up to 125% of its weight in liquid

ADSORBS ODORS

Fewer Flies

All Purpose Absorbent: **Stall DRY**® can be used to remove oil spills or other liquid spills. Cover spill with a generous amount of **Stall DRY**®. Sweep up when dry. **Use on oils, fuels, paints, coolants, grease, water, and other spills.**

Water Clean-up: Remove all excess standing water. Apply up to half an inch of **Stall DRY**® on top of the sub-floor, concentrating on applying the product alongside the walls going out 6 inches. Where drywall has been removed, apply **Stall DRY**® alongside and in-between the studs. Let product sit until dry. For best results leave in place until installing new dry wall and flooring. Sweep up. If vacuuming use a Shop Vac. Do not use a household vacuum. Dispose of used material.

Outdoor Grills: Decrease grease from adhering to bottom of grill and extend life of grill by layering bottom of grill with 1 inch of **Stall DRY**®.

Manure Compost Application: Every 2-3 days sprinkle 1-2 lbs of **Stall DRY**® over the manure pile (either in the spreader or the pile). This will control the odors, speed up composting, bind nutrients in the manure and allow you to use your manure in your fields, gardens or wherever you use it in an environmentally safe manner.

Traction: For traction on snow and ice, place one or two handfuls of **Stall DRY**® under the rear wheels of vehicle. Use on walkways and work areas to keep floors dry, reducing accidents.

Garbage Bins: Sprinkle a thin layer in garbage liner. Add to layers of garbage as needed. Sprinkle a thin layer of **Stall DRY**® at the bottom of garbage receptacles. Sprinkle 1 cup on garbage every 2 days. For large dumpsters add 2-3 cups to empty bin as needed to control odors.

Stall DRY®

Providing the best in stall management for over twenty-five years.
