

# 2 Ton Trolley Jack

## T82002 2-Ton Hydraulic Trolley Jack with Carry Handle

This Torin Big Red® 2 Ton Hydraulic Trolley Jack is small in size, but big on performance. The 4,000lbs. lifting capacity provides exceptional versatility for use with multiple vehicles. Constructed with a nodular cast iron pump and supported with high strength steel this jack will help to lift large loads safely. Engineered using the same systems as used in Aerospace Technologies and in the Automotive OEM sector and built in ISO certified facilities. Designed and tested to meet ASME PASE safety standards.

- Great for use in emergency application
- Compact lightweight structure is perfect for transportability and trunks
- 4,000 lb. load capacity
- Single-piece handle with rubber grip
- Moves into position easily with two 360 degree rotating rear casters
- Built-in safety overload system prevents use beyond rated load capacity
- Constructed of high-grade steel and built to exacting standards for quality and durability
- Lead-free paint is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease, and dirt-resistant for easy cleanup
- 360 Degree rotating saddle
- Rugged base adds stability and strength
- Built in ISO certified facilities and engineered using the same systems as Aerospace Technologies and the Automotive OEM sector
- 100% factory vertical load tested for reliability and safety.
- Meets and complies with ASME safety standards

*360 Degree rotating saddle*

*Easy to carry handle*

*Large front wheels*
