

HOW TO PLUG A TIRE

● Step 1

Remove any puncturing objects from your tire.

● Step 2

Slide the reamer tool in and out of your tire puncture multiple times to roughen and clean the inside of the hole.

● Step 3

Remove a plug from its clear backing, then thread it halfway through the eye of the plugger needle. Coat the middle section of the tire plug with Plug Bond.

● Step 4

With the plug centered in the eye of the needle, start pushing the plugger tool and plug into your puncture. Stop pushing when the plug is 2/3 of the way into the hole.

● Step 5

Pull the plugger tool straight out of your tire with a rapid motion, leaving the tire plug behind. Do not twist the needle.

● Step 6

Reinflate your tire to the recommended pressure.
