

1. This is current diagram of 2500/3500/4500lbs winch.

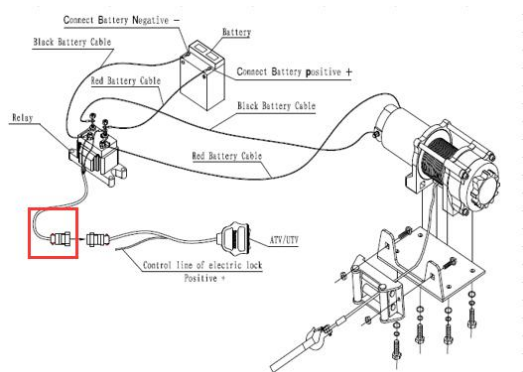

2. If you want to use remote control, please buy SKU#1172307(8K 10K wireless remote).
Image like below.

Theoretically, this remote is for 8000lbs-12000lbs winch, but you can DIY it to fit 2500lbs/3500lbs/4500lbs winch.

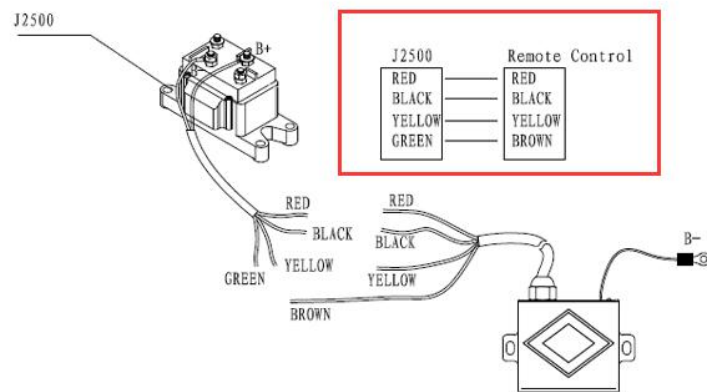

3. How to install remote control unit:
 - 1) Firstly, cut the connector of relay.

- 2) Secondly, cut the connector of receiver.

3) Thirdly, refer to the color comparison table, connect the wire according to it.

4) Done, this winch can be controlled by remote.
