Thank you for choosing Dee Zee to add function and accessorize your vehicle. Dee Zee has been a staple brand in the truck accessory market since 1977 and we hold a reputation of quality manufacturing based in America's Heartland. Our products are born through careful engineering and backed by industry leading warranty programs. We appreciate the opportunity to serve you and your vehicle!

**Review the instruction pages in their entirety to prepare the required tools**

**Warning:** The included J-Bolts must be used during installation to secure the crossover tool box to the truck bed. Do NOT use self-tapping screws on crossover tool boxes. Self-tapping screws can be used only on chest style tool boxes being installed to the truck bed. Premium J-Bolts for crossover tool boxes are available online at [www.deezee.com](http://www.deezee.com) that have more surface area and molded to your truck bed rails. Tie downs designed specifically for Ford aluminum body trucks also are available.

The tool box warranty is void if one of these securing methods is not used.

**Note:** Dee Zee tool boxes are NOT air tight. An air-tight seal allows condensation to form inside of the box, causing the contents to be susceptible to mold or rust. Dee Zee boxes feature various bulb seals and foam gaskets on the lid to help resist weather elements. Should the weather stripping become damaged, please contact our customer service for replacement options at: **1-800-779-2102**

Tool box locks are provided as a theft deterrent and they should always be engaged to prevent easy access to the contents of your tool box when not in use. Contents stored in the tool box are the responsibility of the user and Dee Zee disclaims responsibility of theft. Dee Zee does not insure any loss of contents.

**Cleaning:** To be entitled to all warranty rights offered with the product, Dee Zee tool boxes need to be cleaned regularly with a mild detergent. Do NOT use abrasive cleaners. For stainless steel products, the application of a high grade automotive wax is recommended.

Dee Zee Cares - Please Recycle

# Side Mount / Topsider Toolbox Installation Instructions

This toolbox installation instruction is for both Single-Lid Toolboxes and Double-Lid Toolboxes.  
 Cette instruction d'installation de boîte à outils est pour des boîtes à outils de Single-Lid et des boîtes à outils de Double-Lid.

**A**

**Britetread Side Mount Toolbox:**

Toolbox lid design may vary from picture with different toolbox models.

**Boîte à outils De Support De Côté De Britetread:**

La conception de couvercle de boîte à outils peut changer de l'image avec différents modèles de boîte à outils.

**X1**

<p><b>B</b></p> <p>Mounting Bracket</p> <p><b>X4</b></p>	<p><b>C</b></p> <p>Foam Tape</p> <p><b>X2</b></p>	<p><b>D</b></p> <p>1/4" Flat Washer</p> <p>Black</p> <p><b>X12</b></p>	<p><b>E</b></p> <p>1/4 x 1" Sheet Metal Screw</p> <p>Black</p> <p><b>X4</b></p>	<p><b>F</b></p> <p>1/4 x 1" Sheet Metal Screw</p> <p><b>X8</b></p>
<p><b>G</b></p> <p>1/4 x 1" hex cap screw</p> <p><b>X8</b></p>	<p><b>H</b></p> <p>1/4" Nylon insert lock nut</p> <p><b>X8</b></p>			

**Tools Required:**  
**Outils Nécessaires:**

7/16"

1/4"  
3/16"

**1**

Use the pictures to the right as a guide in locating the side mount / tépsider toolbox (A). **Note: If the side mount / tépsider toolbox (A) is to be installed with a front mount toolbox (As shown in Drawings B and C), be sure to leave enough space between the toolboxes to allow clearance to open both toolbox lids.**

Utilisez les images vers la droite comme guide en localisant la boîte à outils de support de côté de britetread (a). **Note: Si la boîte à outils de support de côté de britetread (a) est d'être installée avec une boîte à outils avant de support (comme montré dans les schémas B et C), soit sûr de laisser assez d'espace entre les boîtes à outils pour permettre au dégagement d'ouvrir les deux couvercles de boîte à outils.**

**2**

Pool backing off of foam tape (L).

Dégagement de peau de la bande de mousse (L).

**3**

Place foam tape (L) onto the bottom of side mount / tépsider toolbox (A) to protect the bed rail of the vehicle.

Placez la bande de mousse (L) sur le bas de la boîte à outils de support de côté de britetread (a) pour protéger le rail de lit du véhicule.

**4**

Drill 3/16" holes through the inside side mount / tépsider toolbox (A) and the pickup truck bed rail according to the part number listed below:

- 1) 48 / tépsider - Drill four holes through the bed rail.
- 2) 60, 68 - Drill six holes through the bed rail.
- 3) 87 - Drill eight holes through the bed rail.

Secure into position using 1/4 x 1" sheet metal screws (F). Tighten into place using a 7/16" wrench / or socket. **Note: Do not overtighten the sheet metal screws. Make sure that if your vehicle already has a crossover toolbox installed, that you position your side mount toolbox so that it is aligned with the crossover toolbox.**

Forez 3/16" des trous par la boîte à outils intérieure de support de côté de britetread (a) et le rail de lit de petit camion selon le numéro de la pièce énuméré ci-dessous:

- 1) 48 - Exercices quatre trous par le rail de lit.
- 2) 60, 68 - Exercices six trous par le rail de lit.
- 3) 87 - Exercices huit trous par le rail de lit.

Fixez en l'place en utilisant 1/4 x 1" les vis en métal de feuille (F). Serrez dans l'endroit en utilisant un 7/16" clé / ou plot. **Note: Ne trop serrez pas les vis en métal de feuille. Assurez-vous que si votre véhicule a déjà une boîte à outils de pont installée, cela vous placent votre boîte à outils latérale de support de sorte qu'il soit aligné avec la boîte à outils de croisement.**

# 5

Hold the side mount / topsider toolbox (A) level while positioning mounting bracket (B) as shown below. Once the toolbox (A) is level and the mounting brackets (B/B) are in the desired position, use a pair of vise-grips to hold them together. Now use the existing holes in mounting bracket (B) as a guide to drill two 1/4" holes through mounting brackets (B/B). Secure both mounting brackets (B/B) together using a 1/4 x 1" button head bolt (G), 1/4" flat washer (D), and 1/4" hex nut (H) at each location. Tighten the 1/4" hex nut (H) until snug using a 7/16" wrench / or socket.

Reposition mounting brackets (B / B) and then re-check the toolbox (A) to make sure that it is level.

Use the existing holes in the bottom of mounting bracket (B) and mark the vehicle floor. Drill two 3/16" holes in the vehicle floor at the marked locations. Secure mounting brackets (B) to the vehicle floor using 1/4 x 1" black sheet metal screws (E) and 1/4" black flat washers (D). Tighten into place using a 7/16" wrench / or socket.

Now use the two existing holes in the top of mounting bracket (B) as a guide to drill two 1/4" hole through the bottom of toolbox (A). Secure the top of mounting bracket (B) to the side mount toolbox using a 1/4 x 1" Hex cap screw (G), 1/4" flat washer (D), and 1/4" hex nut (H). Tighten into place using a 7/16" wrench / or socket.

# TOOL BOX LATCH ADJUSTMENT

**NOTE: TOOL BOX LATCH WAS PRESET AT THE FACTORY. MAKE SURE THE LATCH IS ADJUSTED TO THAT OF YOUR DESIRED SEAL.**

**ALSO, PERIODIC ADJUSTMENT MAY BE NEEDED OVER TIME.**

**PLEASE REFER TO LATCH ADJUSTMENT INSTRUCTION BELOW.**

1. Keeping the striker plate perpendicular to the lid, adjust the striker location left and right to align the pin with the latch as shown below. The dot identified by the arrow shows the preferred location of the striker pin.

2. When the striker pin is correctly centered, tighten top bolt to set the location.

3. Set the pin depth to ensure that the head will clear the latch.

4. Tighten the pin in the lowest location, and close the lid. If the lid is able to move up and down when latched, the latch pin needs adjusted. Adjust the pin up the approximate amount the lid is able to move and retighten.

**MAINTENANCE INSTRUCTIONS:** All locks, latches, latching rods, and hinges should be lubricated regularly to assure smooth and proper operation for the life of the toolbox.

**INSTRUCTIONS D'Entretien:** Toutes les serrures, verrous, verrouillant des tiges, et des charnières devraient être lubrifiées régulièrement pour assurer l'exécution sans heurt et appropriée pendant la vie de la boîte à outils.

**Toolbox Paddle Latch Assembly**

**Toolbox Catch Assembly**

**Ever lose your keys? Save Yourself Time and Trouble?**

Order some extra keys now and have them when you need them. Please fill out and mail this portion to us. We'll send you a couple of extra keys for your Tool Box for just \$11.00 (American).
