### HOW TO MEASURE FOR BLANKETS

Take a measurement from the center of the chest to the center of the tail. The measurement in inches is the size blanket or sheet the horse should need. If the measurement falls between two sizes then round up for the best fit.

Tough 1® blankets come in 3" increments, starting with 51" or 69" through 84" depending on the style of blanket. For example, if your horse measures 74" then order a 75" blanket. The front closure on Tough 1® blankets allow for a custom fit to be achieved once on the horse.
