Step 1

Lay out Front (A), Back (C) and
Side Panels (B) as shown.

Step 2

Starting with the Back (C) and Side Panel (B),
attach the two panels together with the Back
Panel on the **outside** using two Clamps (F) in the
cut out spaces provided.
*Note: If you are removing the Pop-Out Panel,
take it our before step 3.

Step 3

Attach opposite Side Panel (B) and then Front
Panel (A) (with two Clamps (F) per corner)
making sure that the Front and Back Panels are
on the **outside** of the Side Panels.

Step 4

Clamp Roof Panels to top of cage using two
Clamps per panel. Keeping the cage and roof
corners square is very important.

Step 5

Repeat Step 4 for the 2nd
roof panel.
