## BUFFERS

FEATURES	ADVANTAGES	BENEFITS
----------	------------	----------

Heavy Duty capacitor motors	Capable of running long duty cycles underload	Improve finishing performance Powerful, quiet & efficient More versatile Fast blending, finishing and polishing
-----------------------------	---	--

Extended wheel to wheel clearance	Allows longer and larger items to be polished easily	Great operator convenience Allows finishing in the fastest possible way Improved productivity Handles a wider range of parts
-----------------------------------	--	--

Dynamically balanced rotors and sealed bearings	Minimizes vibration Keeps compounds out of the bearings	Ensures smooth running Greater finishing performance
---	--	--

Front mounted toggle switch with lockout key	Located for greater operator convenience and ease of operation	Greater operator safety
--	--	-------------------------
