

NO WARP®

**LOW
PRESSURE**

WINDOW & DOOR FOAM

No Warp® is specially formulated for use around window and door frames. While it can be used as an all-purpose foam, this revolutionary expanding polyurethane foam is designed to air seal without exerting pressure that can be detrimental to window or door frame stability. The end result is an air-tight seal, without bowing windows and doors, that lowers energy costs.

Shown with DAP® Comfort Spray™ Universal 1-Component Straw Foam Applicator (sold separately, product # 7565070230).

**WON'T BOW
