

Secure your gear and fuel in a locking refueling and tool box combo!

We've designed a mobile refueling station with room to keep your supplies and gear secure. The tool box is equipped with locking paddle handles and gas-filled shocks that make it easy to open and close.

The patented 70-gallon refueling tank and tool box combo pairs the popular over-the-rail tool box style with a versatile adjustable design that ensures the tank fits perfectly in any truck bed depth with appropriate weight support.

Transfer Flow refueling tanks are Department of Transportation (DOT) legal to carry and transfer gasoline, diesel, methanol, ethanol, and kerosene, and feature an easy-to-use purge function that moves remaining fuel in the hose back into the fuel tank.

All fuel systems ship with all components needed for installation and use.

FEATURES AND BENEFITS

- For drivers who own ATVs, boats, generators, landscape or farming equipment, or want the option to fuel their truck or additional vehicles
- Comes with 12-volt GPI fuel pump, 12 ft. hose, nozzle, fuel cap, wiring harness with cab-mounted power switch, and mounting hardware
- Pumps up to 8 gallons per minute (15 gallons per minute with 100-gallon refueling tank)
- Built from 12- and 14-gauge ReliaSteel®, high-yield U.S. aluminized steel, for superior durability and strength
- Baffled to prevent fuel sloshing
- Gas-filled shocks for easy opening and closing
- Stainless steel locking paddle handles
- 6-year, unlimited mile warranty
- **Optional upgrade:** Textured coat (40- and 100-gallon only)
