Water Glass Cement Floor Sealer – No. 146

RUTLAND Water Glass Cement Floor Sealer has a unique formula that makes it a multi-use sealant and adhesive. When diluted, it becomes an excellent stain-resistant, concrete sealant. Use full strength for an effective and inexpensive adhesive for sealing gaskets, cartons, and applying labels.

- 1 Gallon Jug
- Can be painted once dry
- Indoor use only
- Made in the USA

Seal Cement or Concrete Floors: Clean surface before treatment, as Water Glass will not adhere to oil or grease. The floor must not have been previously sealed or painted. Concrete must not have a sealing type admixture in it. Dilute one-part Water Glass with four parts water. Mop on surface generously. Let dry for 24 hours and wipe up any puddles that remain. Repeat two or more times to get the desired results. The previous layer must be thoroughly penetrated and dried before application of the next layer. Water Glass will help harden surface for dust control and resist penetration by water, oils, and other liquid spills.

Use as an adhesive: For best results, apply full strength with a brush. It may be diluted with small amounts of water for a less permanent adhesive.

For general cleaning: Dilute one cup of Water Glass with two gallons of water. It makes an excellent cleaning agent for removing dirt and grease from painted

walls. Use rubber gloves. Do not use for cleaning glass.

Typical Physical Properties

Service Temperature: 40°F - 120°F
Weight/Gallon: 11.6 lbs.
Color: Clear
Consistency: Viscous liquid
Dry Time: 24 hours
Storage/Handling: Keep from freezing

Clean-Up: Clean up immediately with soap and water.

Coverage: A 1-gallon container when diluted with water covers approximately 200 sq. ft. If you add less water than recommended, the mixture will be more concentrated and a stronger adhesive.

Storage: Water Glass does not separate and is still good to use in case it does freeze during transit.

A minimum 12-month warranty covers all **RUTLAND** Products. Products that are found to be defective within this time frame will be replaced or refunded at the purchased price. Please contact the **RUTLAND** Customer Service Department at 800-544-1307 or sales@rutland.com for specific product warranties.
