## Ecofan AirMax 812

The Ecofan AirMax is a heat powered stove fan that creates its own electricity from the heat of the stove, increasing your comfort. The Ecofan AirMax Model 812 produces the highest airflow over a wider range of stove surface temperatures. For use on freestanding wood stoves with a surface temperature between 185°F — 650°F (85°C — 345°C). The Ecofan AirMax is an economical way to move air throughout your living space. Creating its own electricity and pushing up to 175 CFM (cubic feet per minute) this fan is ideal for those living off the grid or looking to increase the efficiency of their stove and use less fuel. Whisper quiet and completely assembled, these fans make for a great gift.

### Features & Benefits

- Highest performance Ecofan
- 175 CFM
- 18% fuel savings and reduced emissions from burning less fuel
- Creates its own electricity
- Circulates warm air throughout the room
- Greater airflow and heat disbursement
- Made in Canada

### Model Numbers

812AMBBX (gold)  
812AMK BX (nickel)  
812AMX BX (black)

### Blade Colours

Gold, Nickel, & Black

### UPC Codes

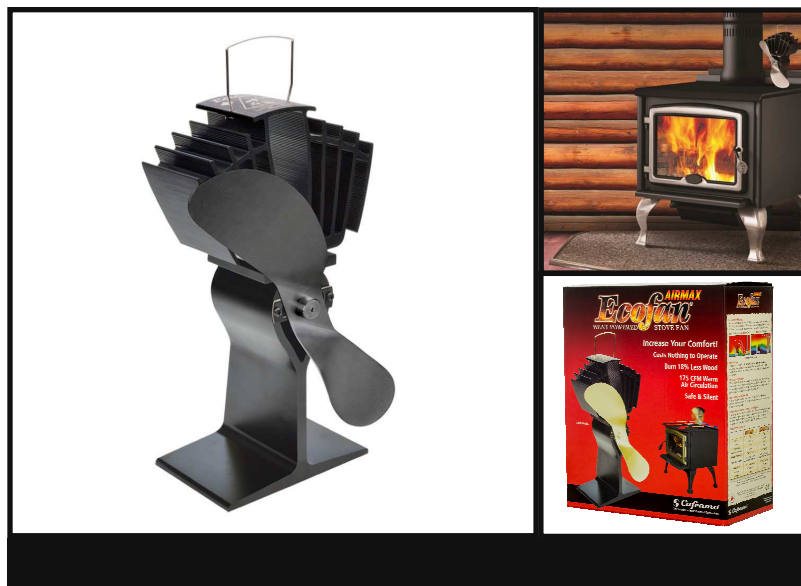

812AMBBX 062503812047
