Introduction

The CanCooker is the easy and convenient way to cook a complete meal in about an hour. The CanCooker cooks with steam — not pressure — and creates a convection oven environment that keeps food healthy, tender and moist. It's perfect for camping, hunting, tailgating, backyard cookouts and the kitchen.

Load CanCooker up with vegetables on the bottom, meat on top and 12 oz. of any liquid — water, broth, beer, soda or juice. There's no grease, oil or frying. Just put the CanCooker on medium-low heat and relax — no stirring or shaking.

CanCooker works with every direct heat source — indoors or outdoors — electric and gas stove tops, charcoal and gas grills, campfires and camping stoves.

**Perfect for
everyday,
weekends and
adventures.**

BC-002

Instructions

STEP 1: Prep your ingredients according to your recipe

STEP 2: Fill the CanCooker - Spray interior of CanCooker with non-stick spray. Put vegetables in first, then meat, fish or seafood. Seasoning and liquid goes in last. Any liquid works — water, broth, beer, soda or juice. Put on the lid and latch.

STEP 3: Bring the CanCooker to a steam on low to medium/low heat — Cook on any heat source, including stovetop, grill, camp stove, campfire and Seth McGinn's Multi-Fuel Portable Cooktop. Reduce heat when you see steam coming from the vent hole.

STEP 4: Steam according to your recipe - The CanCooker will be HOT — be sure to use oven mitts when taking the CanCooker off the heat source. Let it sit for 5 minutes. Use oven mitts when removing the lid and watch out for any remaining steam.

The CanCooker Story

It all started two generations ago in eastern Nebraska when a young Seth McGinn participated in a cattle round-up on his grandparent's ranch. All the ranchers in the area would get together and everyone would help. Before the round-up, each family would bring food that went into a cream can. The cream can was put on a fire to cook while they worked. At lunch time, they would come back to a hot, hearty, homemade meal that easily fed the entire group and included something for everyone.

Seth wanted to make his own and the rest is history!
