

Airrow Pro B-53

Home Pet Dryer

Introducing XPOWER's newest addition, the Airrow Pro B-53 Pet Dryer is your key to safe and efficient at home pet grooming. Trusted by pet grooming salons across the country, XPOWER is now offering their professional technology in a compact model for home use.

Featuring over 500 Watts of power and triple the air volume/velocity of human hair dryers, this unit can dry even the densest double coat. Safer for your pet's coat and skin than a standard hair dryer, the Airrow Pro Pet Dryer will not produce harmful heated air. The 8 included nozzle adapters will allow you to not only save money on grooming costs, but also work throughout your home and office as a versatile electric duster and air pump. This unit's compact design and multifunction adapters make endless application possibilities.
