

INSTRUCTIONS:

1. Mounting hole must not exceed shank diameter by more than .060 inch (1/16 inch). **2.** Always include lockwasher to install hitch ball. **3.** Torque nut to: 160 ft•lb for 3/4" shank, 250 ft•lb for 1" shank & 450 ft•lb for 1-1/4" shank. Improper tightening may cause ball to loosen or fail. **4.** Ball shank must extend at least one thread beyond nut. **5.** Use only with couplers marked with this hitch ball size. **6.** DO NOT exceed load rating of ball or load rating of the hitch. **7.** DO NOT fasten safety chain to hitch ball. DO NOT attach tow chain, cable, rope, elastic strap, nor elastic rope to hitch ball. **8.** Check hitch ball tightness before each use. **9.** Place a small amount of heavy oil or grease on ball before each use. Do not allow oil or grease to accumulate under flange or on nut and threads. This product complies with safety specifications and requirements for the state of New York, VESC regulation V-5, and CSA standard D-264 for connecting devices and towing items.

 **WARNING:** This product can expose you to chemicals including Chromium, which is known to the State of California to cause cancer /birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
