

Model # 37357

Park Right Car Door and Bumper Guards

No More Scratched Doors or Dented Bumpers!

Helps protect your car and your garage during parking and when opening car doors.

1.4 inches of padded protection.

Reflective strips improve visibility in low light.

Installation Instructions:

1. Identify the location on the wall where the guards will be placed. Make sure the surface of the wall is smooth, clean and dry.
2. For bumper protection, the product should be installed vertically and for door protection, the product should be installed horizontally.
3. Remove backing from adhesive strips and place the product in the desired locations. When applying the guards to the wall, press and hold the product in place to assure uniform adhesion. Note: Once applied, the adhesive tape cannot be reused.

WARNING: This product is designed to offer only low-impact protection and does not take the place of careful parking and opening of doors.
