

dogtra

Product Guide

Introduction

Based out of Torrance, California, USA, Dogtra Company produces the world's finest e-collars. Dogtra's focus is on offering user-friendly e-collars that are designed for the most demanding training conditions. Dogtra offers a complete line of e-collars from small-breed pet trainers to a variety of sporting dog units as well as for K-9 Police work.

Why Dogtra?

Is your dog controlling your life? Does it steal food from the counter, nuisance bark, pull you on walks, or ignore you when called at home or in the hunting field? If you answered yes to any or all of these questions, then it's time to take charge with a Dogtra e-collar. Regardless of your dog's behavior issues, Dogtra has an e-collar to fit your needs. Our patented Exact-stim, stimulation control, offers an exact correction level for every dog's temperament, without jumps in between levels. Coupled with our non-stimulating attention getter pager/vibration feature, you have all the tools you need to modify your dog's behavior.

Major features found on Dogtra E-collars

Stimulation Levels

Our patented Exact-stim, stimulation control offers the precise correction level for every dog's temperament. The Exact-stim gives you a wide range of stimulation without jumps in between levels.

Stimulation Types – “Nick” and “Constant”

Nick stimulation is a momentary rapid burst of stimulation to get your dogs attention. Constant stimulation is a continuous stimulation that is applied as long as the button is depressed with a 12 second safety shut off feature.

Non-stimulating Attention Getter

The pager is a non-stimulating attention getter where the receiver/collar vibrates to get the dogs attention without stimulation.

Receiver/Collar Size

Our low/medium output units have a reduced receiver designed for dogs as small as 10 lbs. Our low/high output units can be used comfortably on dogs as small as 35 lbs.

Stimulation Output

Dogtra offers two types of stimulation output units. Our low/medium output units are for dogs with mild dispositions, and low/high output units are for stubborn dogs or for demanding training situations.

Waterproof

Most Dogtra e-collars are fully waterproof (both handheld transmitter and receiver/collar). Note: the iQ Pet series handheld transmitters are water-resistant.

Ranges

Dogtra offers a full line of e-collars with different ranges for a variety of uses: 1 mile, ¾ mile, ½ mile, and 400 yards.

Battery Type/Charging Time

Ni-MH batteries, 10-hr charging time.
Lithium Polymer batteries, 2-hr rapid charge.

Liquid Crystal Display LCD

Most units have an LCD screen so you can view the exact stimulation level and remaining battery life. The screen has a back light for low light or night time usage.

Belt Clip

Some units have a belt clip for easy carrying of the transmitter.

The Dogtra Pathfinder brings GPS e-collar technology right to your smartphone, giving you a more intelligent and responsive way to track and train your dogs.

- Smartphone GPS tracking and training with no cellular data required
- Full e-collar functions, including Nick/Constant stimulation and Tone
- Tracking Only Mode modes with verifiable data and secure contact point covers
- Detailed satellite and terrain maps along with an offline map mode
- Two-second update rate for greater tracking accuracy
- Map zoom capability for superior tracking detail
- Geo-fence and alert options let you customize boundaries and receive notifications
- Easy location sharing for dogs and dog owners
- Expandable to 21 additional GPS Collar and Connector devices
- History playback on your smartphone and computer
- 9-mile line-of-sight range to cover your most active runner
- Fully waterproof for use in all environments

- Long-lasting rapid charge lithium polymer batteries
- Custom alerts for dog actions using pop ups, sound and vibration
- Rheostat volume with stimulation levels 1-100, for every type of dog training situation

2-Second Update Rate	Low/High Stimulation	Offline Maps	Precise and Up-to-date Maps	Tracking Only Mode	Geo-fence Option	9-Mile Range	Nick/Constant Stimulation

RR Deluxe

Designed for the Dogtra PL and QL bird launchers but is compatible with most after-market bird/bumper launcher systems. The RR Deluxe features the most advanced technology to help sharpen your dog's skills for upland hunting, retriever work, or for competitions.

- Advanced 2 Port System Runs Two Launchers off One Receiver (extension cable required)
- Dual Sound Attention Getter Features Realistic Duck or Beep Sound
- Maximum 16 Launchers Operated off a Single Transmitter (extra receivers required)
- User friendly Coding to add Extra Receivers Anytime, Anywhere
- 1-Mile Range
- Rechargeable Ni-MH Batteries
- Multi Colored LED Light Battery Life Indicator

PL/QL Launcher

The PL and QL bird launcher systems are great tools to help train your hunting dog. The PL launcher is designed for pheasant and chukar size game birds. The QL launcher is designed for quail or barn pigeon size birds.

- Maximum Air Flow for Scent Distribution
- Adjustable Spring Tension allows Adjustment of Throwing Height
- Dimensions : QL = 8.6" x 4.5" x 4.3"
PL = 13.2" x 6.9" x 6.9"

(RR Deluxe electronics are needed to operate either the PL or the QL launchers and are sold separately)

iQ Pet a Premium Pet Brand by dogtra

iQ Pet understands the importance of basic obedience and having the right training tool makes all the difference. A well behaved dog allows you to relax and enjoy your time with your furry friend. iQ Pet creates products to help bridge the communication gap between dogs and people. Our iQ Pet products were designed specifically to enhance your relationship with your dog, from our dog activity tracker StarWalk to our compact e-collars, iQ Pet delivers solutions for all your dog's needs.

StarWalk

StarWalk is an application-based activity tracking device for dogs. Owners simply attach the lightweight device to a dog's collar and sync the device with the downloadable app.

- Customizable LED Light Colors (6 colors)
- Programmable Reminder Notification under My Dog Alerts
- Track Exercise and Activity Goals
- Detailed Analysis by the Hour
- Compare Activity with Other Dogs
- Smart Lights for Activity, Alerts, and Goal Tracking
- LED Light (night walking mode)
- Battery Life Indicator
- Fully Waterproof
- Universal Attachment Bracket for Dog Collars
