SPECIFICATIONS - 275 FEET / 84 METERS	
Diameter	0.10 inch
3 Conductors	2 stainless steel and 1 tinned copper
Resistance	0.28 Ohm/ft. - 0.85 Ohm/M
Breaking Strength	165 lbs. / 75 kg
UV Stabilized	Yes
Limited Warranty	5 years

- Good visibility
- Better durability
- Excellent hot wire for top of boundary fences
- Can be used for strip and rotational grazing
- Lightweight and easy to install
- Reusable
- Optima visibilidad
- Mejor durabilidad
- Excelente alambre caliente para el borde superior de la cerca
- Puede ser utilizado para alineado y gramado rotatorio
- Ligero y fácil de instalar
- Reutilizable

A combination of weather-resistant polyethylene and highly conductive mixed metal strands woven for safe and effective electric fencing. Use only with Ultra low or low impedance-type fence energizers.

Una combinación de resistente a la intemperie y los cordones de polietileno de alta conductividad mixta de metal tejido para cercas eléctricas seguras y eficaces. Use sólo con baja Ultra tipo-impedancia o tipo-impedancia de artefactos tipo valla.

CAUTION / PRECAUCIÓN
Read directions on the back of this label before installing. Polyrope is not intended for use as the only means of animal restraint. Recommended for use with a permanent physical barrier fence.

AVISO: Lea las direcciones al reverse antes de instalar. Polyrope no está destinado como único medio de uso para animales retenidos. Se recomienda su uso con una barrera física permanente.
