

90T Quick Release Ratchets

90T Quick Release Ratchets meet demands of harsh pro users' work environments. These ratchets feature a design that exceeds ASME torque performance requirements and provides extended reliability when used in high-torque applications. The 90T Quick Release Ratchets include a premium ratchet tang retention system that provides rapid socket exchanges, and has a precision engineered ball detent to lock in sockets and prevents them from falling without pressing quick release button. To provide better access, 90T Quick Release Ratchets have a 90-tooth gear that delivers a 4° swing arc to turn a fastener in tight confines and access more hard-to-reach fasteners.

90T Quick Release Ratchets
