Protect Yourself and Your Family From Salmonella

- Always wash your hands thoroughly after touching live poultry.
- Children younger than 5 years old, people with weak immune systems, or elderly should not handle or touch live poultry.
- Live poultry should never enter your house, especially bathrooms, or living areas where food and drink is served or prepared including patios.
- Live poultry should not be snuggled, kissed, or held, near human mouths.
- Keep new birds separate from your existing flock for 30 days.
