

Precision Pouring with Accurate Results

# ACCUPOUR

## PRECISION POURING WITH ACCURATE RESULTS

AccuPour measuring pitchers feature extra strong construction made from a food grade polypropylene that has high chemical resistance to a wide variety of chemicals.

Our raised graduations in both US fluid ounces and metric help insure accurate measuring and have been debossed black to be more easily read.

Our unique handle gives extraordinary user comfort, even with a gloved hand. This open handle also allows pitchers to be shipped and stored in much less space.

These pitchers have excellent pouring control. They provide complete control from a fine trickle to a fast pour.
