

FIX-IT-FUEL®

EASY TO USE

Fix-It-Fuel® is designed as a single use treatment for poor/ non-running small engines damaged by ethanol-blended street gas. It cleans and rejuvenates the fuel system to start more easily and operate in top condition. Fix-It-Fuel® is a pre-mixed ETHANOL-FREE 89-octane gas + oil blend. Although mixed with oil at 50:1, it works in any 2- and 4-cycle small engine application. Fix-It-Fuel® cleans and repairs the fuel system without having to remove the carburetor or injectors, avoiding costly repairs and downtime. It's best used as a pre-treatment before introducing ETHANOL-FREE VP Small Engine Fuel which is designed for ongoing use to prevent ethanol-related problems from occurring in the first place.

Cleans carburetors and injectors

Fixes ethanol issues caused by pump gas

Rejuvenates rubber and plastic

Off season storage protection
