YOUR CONTACT

Alyssa Fisher

SALES TEAM LEADER

Our resident dual citizen (Canadian/American), Alyssa came to us in early 2013. Starting off in customer service and sales – it soon became apparent that her warmth and ease in which she was able to connect with customers made having Alyssa as our Sales Manager a natural fit. Alyssa enjoys traveling, spending time with her family, and attempting to keep her office plants alive.

*There's a reason these are North
America's most popular vinyl
products*

Features & Benefits

WHY NEA AND VITA

Warranty

Our warranty covers any defects in material and workmanship for the vinyl for 10-20 years.

Zero Maintenance

We have created structures that are virtually maintenance-free. A heavy rain will do wonders in cleaning it, or you can wash it down with an ordinary garden hose.

Easy to Assemble

Our detailed instructions give all the information needed to install and mount your arbor. Technical support is only a phone call away.

A person is sitting on a wooden bench, reading a newspaper. The newspaper is open to a page with a 'Lambton Ford' advertisement and a 'Journal' article. The person is wearing a dark t-shirt, blue jeans, and a watch. The background is a vibrant mural on a brick wall, featuring a blue sky with a yellow sun, a green landscape, and a yellow airplane flying in the sky. The overall scene is bright and colorful.

WORK WITH US

We're Responsive, Flexible, Eager and Hungry

We're always excited for new opportunities around the world. We want to grow our business with partners that share the same values as we do.

We're Interested in Relationships, not Just Transactions

We've built our successful business on maintaining quality long-term relationships, we'd love to partner with this long term goal in mind.

Customizable Products

With our resources and technologies, we can design to meet local styling preferences to design products specifically for your needs.

OUR
TEAM

OU

NOT OUR FIRST RODEO

By remaining committed to the principles of hard work and excellence, we have built many successful long-term sales programs with the largest big box stores in North America. We're capable of handling any level of manufacturing. We have extensive experience with fulfilling orders quickly and on time, and our systems are fully integrated with EDI and all major shipping carriers.

New England Arbors

Over two decades ago New England Arbors spun out of a local family fencing business in Sarnia, Ontario. We were designing arbors we knew would be popular on a larger scale – and people all over North America have loved our traditional New England designs created in modern low-maintenance vinyl materials ever since.

Since the early days, we've grown our business, but we still work to retain our original small town values. We want the people who invest their hard earned money in our products to have the best experience possible, from ordering and assembly through long ownership.

OUR
BRANDS

OUR BRANDS

We build attractive, long lasting products that help people grow vegetables regardless of ability. Every aspect of our company has purpose—from the selection of materials to our packaging design. Leading by example, we inspire our customers to help the world around us have access to good, fresh foods.

vita
The world needs vegetables.

KEYHOLE GARDENS

3' X 5'

4' X 4'

6' X 6'

INNOVATIVE & BEAUTIFUL |

The Composting Keyhole Garden brings all of the revolutionary ideas necessitated by the limitations of that climate to your garden – enabling you to achieve a higher yield with less work. Keyhole Gardening is a sustainable method – add alternating layers of brown and green matter (newspapers, cardboard, vegetable scraps, etc.) to the garden bed itself, is the perfect recipe for Nature to create it's own nutrient-rich soil for you. This adds carbon, nitrogen, and air to the soil enabling you to produce a large amount of nutritious, organic food using the least amount of space and the least amount of water. Then use the compost basket for your daily compostable kitchen scraps

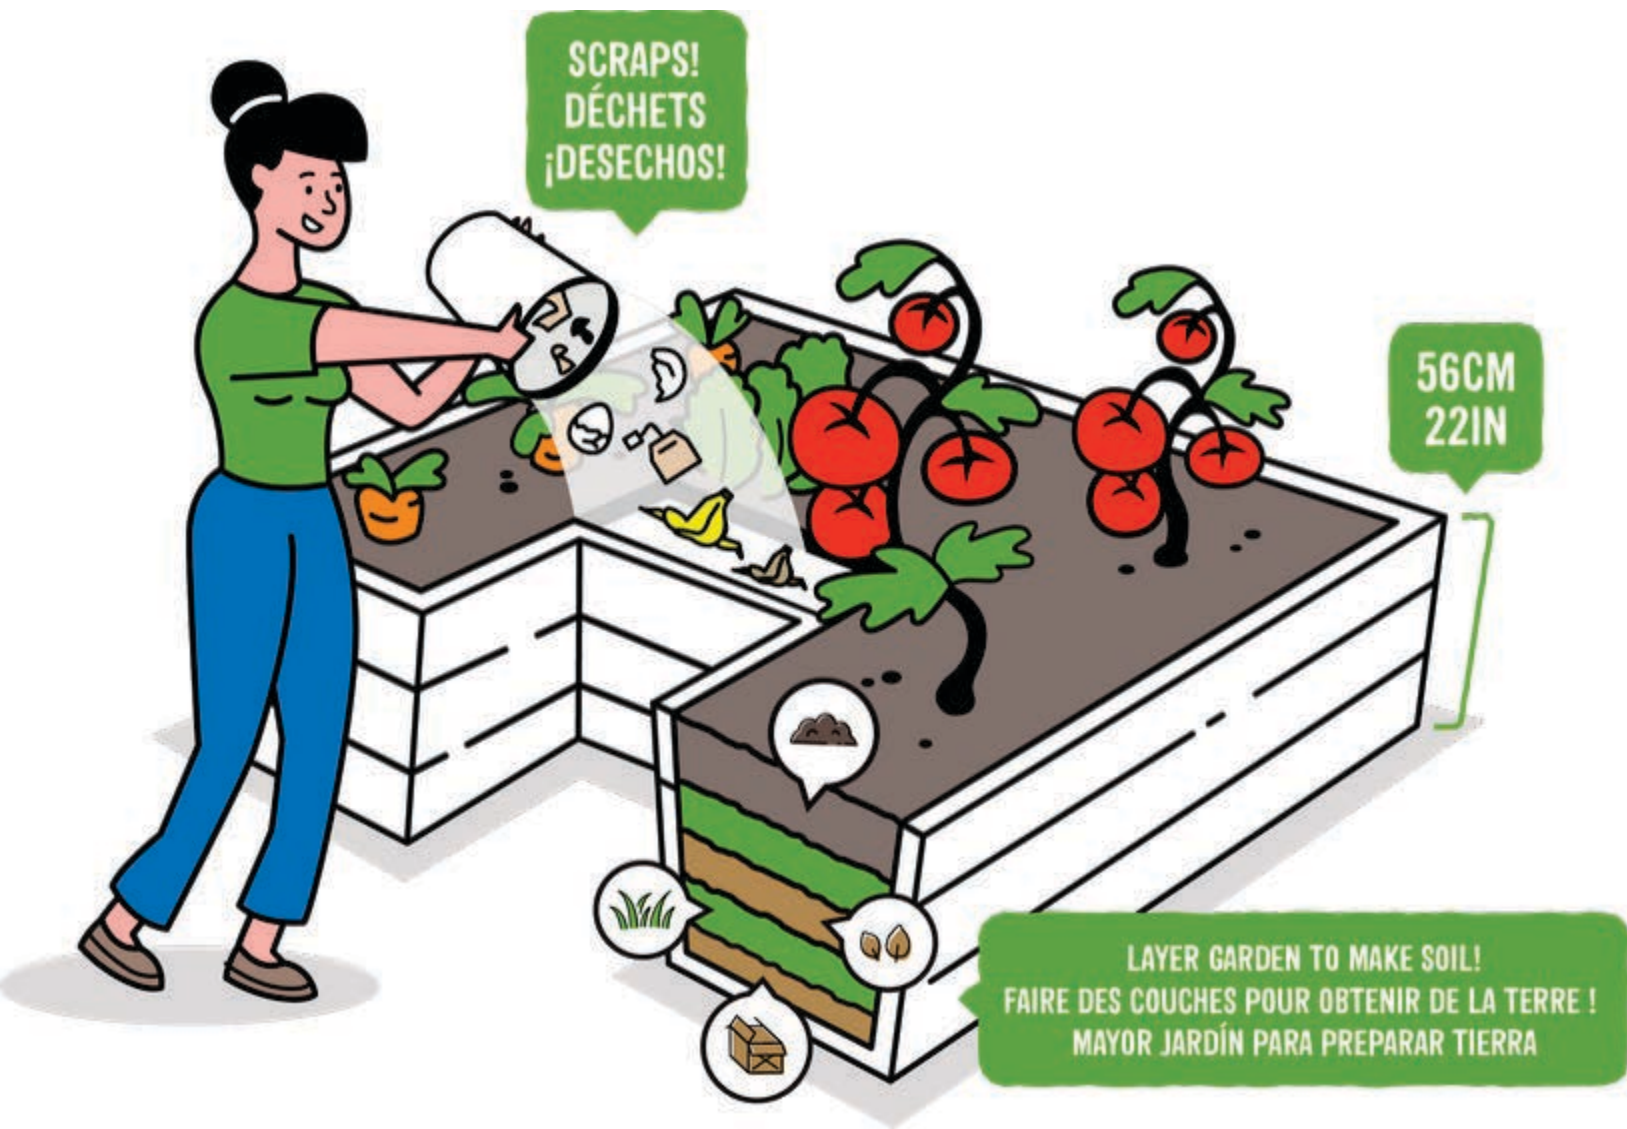

SIZE RANGE | 3' X 3' - 8' X 12'

Screless assembly
Recycles own box
Create your own organic soil

RETAIL RANGE | \$199.99 - \$1299.99
