

Cozy Pet Warmer Instructions

Keep your pets happy and warm with our efficient and effective radiant panel heaters. The Cozy Pet Warmer has a steel-wrapped, chew-resistant cord for safety and peace of mind. Using only 200 watts, this gentle heater for your pets uses only a fraction of electricity that other radiant heaters use.

MOUNTING - Cozy Pet Warmer can be mounted in two ways:

Free-Standing: To use the Cozy Pet Warmer free-standing in any area, simply push the feet (supplied) snugly all the way into the slots on the back of the unit. The feet are removable if wished.

Wall or desk-mounted: Mark the wall or desk panel for the desired position. Attach secure hooks, screws* or nails as most appropriate for the mounting surface. Hang the unit using the mounting holes in the back. (*basic wood screws included; use your own if a different size or type are preferred)

CAUTION: Mount vertically. Do not use directly on floor or in horizontal position. Allow heater to cool before touching or moving.

HEAT CONTROL:

Cozy Pet Warmer has a special in-cord switch allowing you to select HALF power (one line) or FULL power (two lines) to suit your comfort.

This switch is LIT when the unit is ON.

The middle position (O) is OFF.

SAFETY HEAT DISPLAY:

As an added safety feature, COZY PET WARMER front panel surface has a heat-sensitive indicator to show when the surface is warm. When heated, it shows the universal 'ON' symbol as shown in the upper left corner of the unit. When cold, it disappears. When this red indicator is visible, the unit is ON or still warm.

CLEANING: Unplug unit and wipe with a damp cloth.

IMPORTANT: READ BEFORE USE

CAUTION: this appliance is designed for use ONLY with 110/120 volt power supply such as USA and Canada. DO NOT use Cozy Pet Warmer with 220/240 volt electric supply such as is common in UK, Europe & other countries outside the USA.

This appliance has a polarized plug. One blade is wider than the other. To reduce risk of electric shock, this plug is intended to fit in a polarized outlet one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

WARRANTY: This product is warrantied against defects in materials and workmanship for a period of six months from the shipping date. At the option of Cozy Products, we will either replace or repair the defective unit. Please contact Customer Service for help 800.662.5021 customerservice@cozyproducts.com

WARNING: Take care to determine prior to use whether this device is suitable, adequate or safe for the use intended. Since individual applications are subject to great variation, the manufacturer makes no representation or warranty as to suitability or fitness of these devices for any specific application. While product includes an over temperature regulator, misuse may cause failure, damaging the product, mounting surface or work area. Use in a dry area; avoid exposure to moisture. Mount free from materials that hinder the transfer of heat. Do not drape or cover product with any material. Always allow heat to escape. Protect from puncture. Turn off when not in use. Use caution as you would with any hot product, especially if you have any issues with loss of feeling in the areas affected by the heat.

HOW IT WORKS: Cozy Pet Warmer is designed to warm up to a safe temperature to keep your pets comfortable and warm. The heat is thermostatically controlled. Cozy Pet Warmer is certified Zero Clearance, meaning its gentle heat will not pose a danger if accidentally left too close to other furnishings. This reduces fire risk compared with typical space heaters.
