

HOW IT WORKS: Ultimate Blue™ Pond Dye is formulated to provide ponds with a deep blue color. Ultimate Blue™ Pond Dye is perfect for natural and man-made contained ponds and lakes including recreational, fishing and golf course ponds. One gallon of Ultimate Blue™ Pond Dye will treat up to one surface acre 4' – 6' deep, for several months, depending on rainfall. Ultimate Blue™ Pond Dye should be used all year.

HOW TO APPLY: With the ready-to-use, self-dispersing formula, Ultimate Blue™ Pond Dye can be simply poured from the bottle into the pond. For faster dispersion, we recommend pouring in several areas along the pond's edge.

WHEN TO APPLY: For best results, apply in early spring. Water temperature has no effect on Ultimate Blue™ Pond Dye and should be applied every 4-8 weeks or as needed to maintain a deep blue color. Ponds that receive heavy rain and/or intense sunlight may require additional treatments of pond dye. During winter applications, Ultimate Blue™ Pond Dye may be applied directly onto ice cover.

QUICK DOSE CHART
 Use 1 – 2 gallons per surface acre, 4–6 ft. deep, every 4–8 weeks or as needed.

Surface Acre = Length x Width / 43,560

WATER USE RESTRICTIONS: Ultimate Blue™ Pond Dye may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with Ultimate Blue™ Pond Dye may be used for recreation, fishing and other activities immediately after treatment. Safe for fish, pets, horses, livestock, birds, wildlife, recreational ponds and the environment. Do not apply to water that will be used for human consumption.

STORAGE AND HANDLING: Keep product in original container and closed when not in use. Store in a cool, dry place. Do not allow it to freeze. Wear rubber gloves when handling. Avoid contact with skin, eyes and clothing. Wash with soap and water after use. If ingested in large amounts, induce vomiting. For small cleanups and surface stains, use a diluted bleach solution.

ATTENTION: Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. PondValue™ is not responsible for any loss of aquatic life.

Safe for fish, pets, horses, livestock, birds, wildlife, recreational ponds and the environment.
