PLANTING NEW GRASS? START IT OFF RIGHT!

Just like people need the right food to grow and develop, your new grass also has special nutritional needs. **Scotts® Turf Builder® Starter® Food for New Grass** is specially designed to be used when planting new grass. It contains a combination of nutrients to help your new lawn grow strong roots and to grow in thicker and faster than if not fed at all. Scotts® Turf Builder® Starter® Food for New Grass can be used anytime you're planting new grass, whether it's starting a new lawn, reseeding an existing one, or installing sod, sprigs or grass plugs. It is safe to use on any grass type.

For the ultimate Scotts® Lawn, use with Scotts® Turf Builder® LawnSoil™ & Scotts® Turf Builder® Grass Seed!

QUICK START GUIDE: You're Just Three Simple Steps Away From A Beautiful Scotts® Lawn! GUÍA DE INICIO RÁPIDO: ¡Está a sólo tres sencillos pasos de tener un hermoso césped con Scotts®!

FILL & SET SPREADER

Llene y ajuste el esparcidor

Scotts® products are designed to work with Scotts® spreaders. This package applies 3 lb of product per 1,000 sq ft. Los productos Scotts® están diseñados para funcionar con los esparcidores Scotts®. Con este paquete se aplican 1.3 kg de producto por cada 93 metros cuadrados.

Scotts® Broadcast / Rotary Spreaders **3 1/4**
Esparcidores por voleo/giratorios Scotts®
Scotts® Drop Spreaders **6**
Esparcidores por goteo Scotts®

APPLY Aplique

El fertilizante Scotts® Turf Builder® Starter® Food for New Grass puede aplicarse inmediatamente antes o después de sembrar el césped nuevo. Riegue a diario o según sea necesario para mantener la superficie del suelo húmeda hasta que el césped nuevo alcance por lo menos 5 cm de alto.

CLEAN-UP Limpie

Return unused product to original container. Help keep our water clean. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn.

Vuelva a colocar el producto no utilizado en el envase original. Ayude a mantener nuestra agua limpia. No aplique cerca de agua, desagües de tormenta o zanjas de drenaje. No aplique si se anuncia lluvias intensas. Aplique este producto solamente sobre césped y barra hacia el césped el producto que caiga sobre la entrada de automóviles, la acera o la calle.

HOW TO CARE FOR YOUR NEW GRASS

Watering

After you've planted your new grass, continue to water at least twice a day (or more frequently if the weather is hot), until it has been mowed 1-2 times. Once your new grass is established, you can go back to a normal watering routine.

Feeding

Feeding is important for all lawns, but it's especially important for new grass plants. To keep your new grass growing and maintain a thick, green appearance, provide a follow-up feeding in 2-4 weeks with Scotts® Turf Builder® Starter® Food for New Grass. If you live in an area where Phosphorous applications are limited, feed with Scotts® Turf Builder® Lawn Food instead. Once your new grass is established, continue with regular feedings every 6-8 weeks.

Florida applications: Maximum of 4 annual feedings with the exception of bahiagrass and centipedegrass (2 feedings in the north and 3 feedings in the central and south).

Mowing

If you've seeded bare spots or a whole lawn, wait to mow the area until the new grass is at least 3 inches tall. If you've seeded over your existing lawn, you can mow as needed, but try to cut back the frequency to limit traffic on the new seedlings.

Treating Weeds

Wait until you've mowed your new grass at least 4 times before treating the new grass with a crabgrass preventer or other weed control product. Always read the product label for specific information related to the weed control product you are using.

Treating Bugs

Most bug control products can be used any time on newly planted grass. Always read the product label for specific information related to the pest control product you are using.

Water Smart®

Well fed lawns are more efficient at using available water. Feeding with Scotts® Lawn Food helps grow a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat, drought and other stresses.

& Your Environment

We care - Scotts® products are designed with care to grow a thicker, greener lawn. **A Green Lawn is a Good Lawn -** A healthy lawn cleans the air, produces oxygen and prevents runoff and soil erosion. **You can make a difference -** Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back on to your lawn.

FIRST AID AND STORAGE INFORMATION

KEEP OUT OF REACH OF CHILDREN

CAUTION: Escapado de vapor de agua puede causar irritación. Evite el contacto con la piel. Evite el contacto con los ojos.

STORAGE

Store in original container, out of reach of children.
