

Trident's Pride Fish Fertilizer

Trident's Pride liquid fish fertilizer/ soil enhancer by Bare Ground is an OMRI rated all natural 100% organic fish fertilizer which adds proteins and enzymes to soil. This concentrated high energy soil nutrient broth creates a great foundation for building the best lawns, crops or gardens. Using Trident's Pride by Bare Ground allows you to cut down on the need for chemical fertilizers while still increasing soil anti-oxidants, sugar content and earthworm population. The increased soil microbe production also reduces the need for pesticide usage and creates stronger growth by increasing the cation exchange of soil ions.

NPK 2-3-1
