

Van Zyverden's **PECAN TREE**

The pecan tree is native to North America and grows well from Illinois to Florida and across the south to Texas. The tree may reach an incredible 70-100 feet in height and 40-80 feet in width. Pecan nuts are much enjoyed. Pecans are heart healthy, containing 87% unsaturated fatty acid. They are high in vitamins and minerals, containing over 19 important ones. The pecan offers antioxidant properties that reduce LDL cholesterol - the bad type - build up.

Prized, delicious nuts

*Three varieties guaranteed
to assure proper pollination*

*Tree may reach an incredible
70- 100 feet in height
and 40-80 feet in width*

About This Variety: To assure proper pollination we pack three varieties: Stuart, Mahan, and Colby, which produce large and classic pecans.

Growing Instructions: Dig a hole that is at least, two feet wide and three feet deep and back fill with well drained soil before planting.

Care Tip: Tree pruning to encourage vigorous growth and rapid establishment is recommended.

Exposure: Full sun to partial shade

Height: Grows 70-100' tall

Spacing: Plant 40' apart, at ground level

Hardy in: USDA zones 5-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
