

Van Zyverden's
PEONIES SARAH BERNHARDT

Peonies are perennials and are known to live for decades, even generations. The blooms are outrageously beautiful, producing lush, glossy, green foliage all summer long, turning purplish or gold in the fall, as stately and dignified as any shrub. They are somewhat more expensive to propagate, but well worth the investment in your garden. Double peonies, which is what these are, are by far the most popular of all peony types and the most widely planted.

Fragrant

*Peonies will live
for decades*

Excellent cut flower

About This Variety: Sarah Bernhardt - the queen of the peonies - yields large, pure pink, fragrant blooms that have made this variety a great peony choice and a van Zyverden best seller since the beginning. A breathtaking variety!

Growing Instructions: In most of the country, the rules for success are simply full sun and well-drained humus-rich soil. Peonies even relish cold winters, because they need chilling for bud formation. In zones 8 and higher they are harder to grow. They are not fussy, but choose your location wisely so that they can be left alone once planted. Plant away from trees or shrubs as peonies do not like to compete for food.

Care Tip: The plants require little maintenance as long as they are planted properly and establish themselves; they don't respond well to transplanting. Unlike most perennials, they thrive on benign neglect as they do not need to be dug and divided. Prune foliage to the ground in the fall.

Exposure: Full sun to partial shade

Height: Grows 24-36" tall

Spacing: Plant 3-4' apart, 1.5 -2" deep

Hardy in: USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
