SUPREME

WILD BIRD MIX

The key to attracting colorful birds to your backyard is understanding who eats what.

In fact, most seed-eating birds have specific preferences that, once understood, can be used to attract specific birds to specific feeders. You'll enjoy the increased sights and sounds of wild bird activity in your backyard.

What makes Lyric Supreme Wild Bird Food different from other brands?

Beginning bird feeders often select their seed mixes based solely on price. Only with experience do they realize that better, more attractive seeds are worth their higher cost.

Lyric Supreme Wild Bird Food is simply the "creme de la creme" of wild bird food mixes. A blend of over 11 ingredients including pecans, pistachios, peanuts, sunflower, safflower, nyjer, canary seed and millet makes this ultimate gourmet wild bird food and justifies Lyric's claim to be the "Leader at the Feeder."

Lyric Supreme includes the favorite food of every seed-eating backyard bird, so you're guaranteed to satisfy all your backyard visitors. Furthermore, all Lyric mixes are clean - Lyric products contain minimal dust and no twigs, dirt or other organic debris. And no Lyric product contains any waste or filler seeds such as red milo, wheat or oats.

Which birds eat Lyric Supreme Wild Bird Food Mix?

Lyric Supreme attracts the greatest variety of species because it has the greatest quantity and quality of ingredients. Cardinals, grosbeaks, finches, chickadees, titmice, nuthatches, towhees, juncos and woodpeckers mob any feeder filled with Lyric Supreme.

Is there a "best" feeder for Lyric Supreme Wild Bird Food Mix?

Lyric Supreme should be offered in a feeder that protects the seeds from the elements because some of the ingredients are shelled seeds and nuts. We recommend tube feeders, bowl-style feeders, or hopper feeders.

Ingredients:

Black Oil Sunflower Seed, Cracked Corn, White Proso Millet Seed, Shelled Peanuts, Black Striped Sunflower Seed, Safflower Seed, Pecans, Pistachios, Small Golden Millet Seed, Canary Seed, Nyjer Seed.
