

★ **FOR HORSE** ★

DIRECTIONS FOR USE ON HORSES:

Before Heavy Workouts

A brisk rub with Equimint over the haunches, legs and stifle area reduces warm-up time and reduces the chances of muscle and joint strain.

After Workouts as a Leg Brace

Simply massage a generous amount of Equimint around the knee area and bandage as a brace.

For Swelling Reduction

Apply a generous amount of Equimint to the affected area. If swelling is below the knee or hock of the horse, cold hose the area for 20 minutes, then massage a generous amount of Equimint into the swollen area, wrap with medium pressure using a cotton pad and cotton polo wrap. Repeat twice daily.

16.9 FL (500mL)

★ **FOR RIDER** ★

RIDERS DIRECTIONS FOR USE:

Gently massage a generous amount of Equimint onto the sore or strained muscles and joints. Apply as often as needed. Helps to rehabilitate muscles, joints, tendons and soft tissue. Used by professional sports participants the world over.
