Back Up Alarms

Protection For All Work Environments Day or Night

Back Up Alarms provide essential notification alerting the presence of nearby work vehicles. Vehicles equipped with Back-Up Alarms help reduce liability and create a safer work environment around the clock.

Applications include: Service/Fleet Vehicles, Delivery Trucks, Construction Vehicles, Heavy Equipment, Utility Trucks, Tractor-Trailers, and Fork-Lifts

BACK UP ALARM

BA-151008

- Loud 97dB audible alarm
- Reverse polarity voltage protection
- Corrosion-resistant design for heavy-duty applications
- Epoxy encapsulated - protected against dust, water and vibration

LED STROBE BACK UP ALARM

BA-152051

- Loud 97dB audible alarm
- Bright 200 lumen flashing amber LEDs
- High-visibility wrap-around lens for >180° field-of-view
- Multi-function operation, including Night-Silent for use in sound sensitive areas
- Corrosion-resistant design for heavy-duty applications
- Epoxy encapsulated - protected against dust, water and vibration

Part Number	BA-152051	BA-151008
Lumens	200	N/A
Operating Voltage	12-24 VDC	12-24 VDC
Temperature Range	-40°C to +85°C	-30°C to +55°C
Ingress Protection	IP68 / IP69K	
SAE/DOT Noise Compliant	SAE J994	
Weight	0.44 lbs (0.2 kg)	0.5 lbs (0.2 kg)
Dimensions	3.2” x 4.0” x 1.7”	3.3” x 2.7” x 1.6”
Housing	ABS Plastic	Glass Filled Nylon
Mounting	Horizontal or Vertical	
Lens	Optical Grade Acrylic	N/A
Connection	Wire Leads	Terminal Studs

SAE/DOT Noise Compliant:
Meets SAE J994
