

Get started!

Happy Ride[™] **DOG RAMP STABILIZER**

Let's remove the roadblocks to your
next road trip.

2

Select the right clip for your ramp.

3

Slip the strap loop (next to the adjuster) onto the rubberized hook.

Pass the end of the strap through the plastic clip and back up through the adjuster.

4

Hang the hook securely over the inside of the open vehicle door.

Place the ramp in the doorway and rest it as securely as possible onto the seat or floorboard.

5

For the folding ramp: First hook the clamp under the rail, then over until it clicks

For the telescoping ramps: First hook the clamp over the rail, then under until it clicks.

With a little patience and lots of praise,
your dog will soon be happy using the ramp
on his own.
