

Freestanding Metal Pergola

Incorporate structure and shade in your outdoor area with an 8' x 10' metal pergola from Hanover. Most pergolas are an extension of a house or building, but this freestanding design gives you the freedom to place it wherever you like. A pergola is more than just a style statement; it offers shade from harsh sun rays while still allowing a cool breeze to pass through. You can install it over your patio furniture to further define your outdoor lounge space, or use it to create a chic passageway from one area to the next. The sleek, metal frame is made out of heavy-duty steel and finished in a weather-protective powder coating for maximum outdoor durability. The gray canopy is adjustable so you have more control over the amount of shade you prefer. It's made with outdoor polyester fabric, measures 207.5" x 72", and slides across the frame with ease. Customize the look by adding string lights or vines and enjoy a modern hideaway in the comfort of your own backyard.
