

Thank you for purchasing a Coolin' Comfort Bed™ designed by K&H Pet Products®. The Coolin' Comfort Bed™ should provide years of soft, cool, orthopedic sleeping comfort for your dog. Please read all instructions before using this product.

### USE INSTRUCTIONS

Read all instructions carefully.

#### HOW TO FILL & USE YOUR COOLIN' COMFORT BED™

- Remove the Coolin' Comfort Bed™ from the box. Locate the filler cap on the bed and open it by grasping the base of the cap with one hand and the tab of the cap with the other. Pull the cap open. **See Figure a.** Flatten the Coolin' Comfort Bed™ and let it sit for a few minutes to allow the cool core interior to retain its shape as all air has been removed for shipping.

- Place the Coolin' Comfort Bed™ in the intended location with the cap side of the bed up for filling. Place a towel under the filler cap end of the bed to absorb any accidentally spilled water. Using a calibrated container with a pour spout, begin carefully filling the Coolin' Comfort Bed™ with cool water. **See Figure b.**

For a nice cool bed, minimum quantities:

**SMALL:** Minimum 6 quarts or 1.5 gallons  
Maximum 10 quarts or 2.5 gallons

**MEDIUM:** Minimum 10 quarts or 2.5 gallons  
Maximum 14 quarts or 3.5 gallons

**LARGE:** Minimum 16 quarts or 4 gallons  
Maximum 24 quarts or 6 gallons

For more cooling power, add more water. Do not exceed maximum recommended levels. Ultimately the recommended quantity of water for best cooling capabilities is as listed above.

- Now that you have your Coolin' Comfort Bed™ filled, close the filler cap and begin to knead the bed to help work the water into the Cool Core™. **See Figure c.** Now pull open the air adjustment valve and gently work as much air out as you can, using sweeping motions across the Coolin' Comfort Bed™ with your hands. Sweep the air towards the valve allowing the air to expel from the bed. Seal the valve when most of the air has been removed. You will feel how comfortable the bed will be at this point. The bed should feel very soft and spongy and you should feel water squishing around inside the bed. Now decide if a little more water is desirable or if it's just right for your pet. Add water if necessary, repeating the air removal process. **Note:** A little air inside the bed will not affect the cooling capabilities of the Coolin' Comfort Bed™. If you choose, you may expel air as needed though not necessary.

#### HOW TO EMPTY YOUR COOLIN' COMFORT BED™:

- Open the filler cap.
- Roll bed from opposite end, expelling water out of the cap. (Much like rolling a sleeping bag)
- Store with filler cap open.

#### IMPORTANT TIPS & TRICKS:

**MOVING YOUR COOLIN' COMFORT BED™:** Do not lift or move the bed by its corners as this will cause the foam core interior to separate from the sides. Fold the bed and wrap each arm around either end of the bed to move. (See Figures c & d)

#### CLEANING OR STORING:

Grapefruit Seed Extract is an all natural, non-toxic antibacterial. Add it to the water when filling and place a few drops in before storing to help prevent bacterial growth.

#### HOW TO USE COOLIN' COMFORT BED™:

The best results will be obtained when used in a shady area. When using outdoors, always place the Coolin' Comfort Bed™ in a shady, cool spot, as this will maximize its heat wicking abilities. Be sure not to place the bed on sharp objects that could puncture the Coolin' Comfort Bed™. Keeping the Coolin' Comfort Bed™ indoors overnight near air conditioning will super cool the bed for outdoor use the next morning. When using indoors, be sure to place the Coolin' Comfort Bed™ out of direct sunlight. The cooler the spot you place the Coolin' Comfort Bed™, the better. An ideal place would be a cool tile, linoleum or concrete floor. An area with good air movement will also help keep the bed cooler. You will soon figure out the best location for your new Coolin' Comfort Bed™, and your pet will love you for it!

#### HOW DOES THE COOLIN' COMFORT BED™ WORK?

Unlike a fluffy dog bed that is designed to retain heat to keep a dog warm, the Coolin' Comfort Bed™ is designed to radiate heat back into the air or the floor surface to keep a dog cool. The water-saturated Cool Core™ inside the Coolin' Comfort Bed™ absorbs the dog's natural body temperature of 102° Fahrenheit and converts it to room temperature, which is normally well below the dog's body temperature. The difference created between the room temperature and the dog's body temperature is how the Coolin' Comfort Bed™ provides a cooler, refreshing surface for your dog. Even if it is 80°F in your house, the Coolin' Comfort Bed™ is 22° cooler than a dog's 102° body temperature. The Coolin' Comfort Bed™ provides a permanent, natural, "cool" spot for your dog, inside or outside in temperatures under 95° Fahrenheit without chemicals or electricity.

#### Important Safeguards

- Have your dog's nails routinely trimmed to prevent accidental punctures.
- The Coolin' Comfort Bed™ should be placed on a smooth surface that cannot cause punctures, abrasions or leakage.
- Routinely check under your Coolin' Comfort Bed™ for moisture.
- The surface can be cleaned using a damp towel or sponge and mild dish washing detergent. Do not wash in a washing machine.
- Never use the Coolin' Comfort Bed™ in direct sunlight. Always place in shade, as direct sun will warm the Coolin' Comfort Bed™.
- Always place the Coolin' Comfort Bed™ out of the way of foot traffic.
- Never allow the Coolin' Comfort Bed™ to freeze.
- The Coolin' Comfort Bed™ is not intended to be a life saving device.
- This product is to be used in temperatures under 95° Fahrenheit.

#### K&H Limited Two Year Warranty

**Our warranty is as follows:** K&H Pet Products warrants to the original consumer, that this product will be free of defects and workmanship for a period of two years from the date of purchase. The manufacturer's liability hereunder is limited to replacement of the product. This warranty is void if the product has been damaged by accident, unreasonable use, neglect, tampering, or other causes not arising from defects in material and workmanship.

**To exercise your warranty:** If, during the warranty period, your product malfunctions, return it to the place of purchase with your **original purchase receipt**. If this cannot be done, return the product, postage prepaid, to K&H Pet Products, with a **dated proof of purchase or original date receipt**. A return authorization number can be obtained by calling (719) 591-6950 and must accompany all returns to manufacturer. Please include a note explaining the problem when returning the product.
