With Optional Hopper Extension

Easy to Use Dial Control

PP130-B Pellet Stove

Best Heating Performance In Its Class!
EPA-Certified 87.5% efficiency means more heat in your home. Saves you money by getting the most heat from your fuel.

Biggest Hopper Capacity In Its Class!
Holds 130 lbs of pellets for up to 80 hours of burn time plus add the optional hopper extension for a massive 330 lb hopper. Spend less time filling and more time enjoying heat.

Easy To Use Dial Control!
The built-in thermostat provides easy adjustments. Too cool or too warm? Adjust the dial and the stove will automatically do the rest.
