

Van Zyverden's
ORNAMENTAL TREE DOGWOOD

Planting a tree is a very rewarding experience as its a very easy way to increase the value of your home, and you can enjoy watching it grow and mature to its full potential in the years to come. According to the Arbor Day Foundation, a non-profit whom promotes the planting of trees nationwide “ They clean air and water, slow climate change, ease poverty and hunger, prevent species loss, and feed the human soul. All we need to do is plant and care for them. Let’s work together to make it happen around the world”. Planting trees will help preserve the planet for future generations as it makes it cleaner and greener.

Four season landscape interest

*The dogwood planted
at Camp David*

Fast and upright grower

About This Variety: This is the dogwood one finds growing at Camp David Presidential retreat in Catoctin Mountain Park in Maryland, maintained by the US government for use by our president. This smaller ornamental tree produces showy white spring flowers, which turn red-purple in the fall season yielding to red fruit in the winter (eaten by birds).

Growing Instructions: Plant where it will receive at least six hours of direct, unfiltered sunlight daily. Before planting protect the tree from freezing, overheating, drying out or injury. If the roots have dried, soak them in water about 24 -48 hours before planting. Dig a hole twice the diameter of the root system and two feet deep. Replace some of the loose soil so that the roots can easily penetrate the soil. Spread the roots on top of the soil, planting it at soil level. Firm soil and water well. Do not fertilize at planting time.

Care Tip: Great planted with larger evergreens in the background.

Exposure: Full sun

Height: Grows 15-20' tall

Spacing: Plant 15-20' apart, ground level

Hardy in: USDA zones 5-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
