

*Van Zyverden's*  
**BLUEBERRY PATCH**

Here is a sweet, and unique treat to delight the palate. These berries add delectable color and sweetness to desserts. Plus, they make an attractive ornamental as they produce bell-shaped white-pink flowers in early spring, and dark green leaves which turn shades of red in the fall. The reddish stems add winter interest.

*Grow your own*

*Three individual varieties  
to maximize cross pollination*

*Many health benefits are claimed  
as they contain antioxidants*

*About This Variety:* Blueberries are self-fertile however if allowed to cross pollinate between varieties they will yield a much larger harvest over time. To maximize pollination we include one plant each of, Jersey, Duke and Bluecrop.

*Growing Instructions:* Best grown in acidic, rich, medium to wet soils in full sun. Constant moisture and drainage is advised. Planting different varieties together increases crop production. Its best to remove the flowers from the plant in the year of planting to encourage vegetative growth. Prune late winter in the third year.

*Care Tip:* Berries are ready to be picked when they nearly start falling of the vine.

*Exposure:* Full sun

*Height:* Grows 4-8' tall

*Spacing:* Plant 6-8' apart, bud union should be 1" above soil level

*Hardy in:* USDA zones 5-7

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
