All-America Rose Selection

Spicy fragrance

About This Variety: Double Delight, a hybrid tea All-America type rose, is an immensely popular rose which has won numerous awards, including the 1977 AARS. It was inducted into the WFRS Hall of Fame in 1985. The unique creamy white blooms blush strawberry red and have an intense spicy fragrance. Bushy and spreading in form, with large blooms.

Growing Instructions: 1- Select a well-drained location away from trees and hedges where there is sun at least half a day. 2 - Prepare the site by digging a hole 12" to 15" deep and about the same depth. If available add 6-8" of compost, manure or top soil. 3 - Best to plant immediately upon arrival. Remove package and soak the bush in water for about an hour. Prune the canes back to about 1" above the bud union. Then spread the roots out evenly into the prepared hole. Plant at a depth whereby the bud union (where the branches come together) will be about 1" above the soil level after back filling the hole. 4 - Best to mound soil or mulch over the bud union until the danger of frost has passed, removing it once new growth is observed. 5 - Soak soil every week until it gets established when rain fall is deficient. 6 - Fertilize with a season-long balanced fertilizer once leaves start to emerge.

Care Tip: Pruning off an inch or so off the canes will help send a message to the rose that it is time to start growing once again.

Exposure: Full sun to partial shade

Height: Grows 36-60" tall

Spacing: Plant 36" apart, bud union should be 1" above ground level

Hardy in: USDA zones 5-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
