

# Creator™ Series

## Auto-Darkening Welding Helmets

283435  
August 2018

### Quick Specs

**2-YEAR  
WARRANTY**

**Viewing Field** 3.82 x 1.85 in. (97 x 47 mm)

**Shades** Darkened State: #9–13, Light State: #3

**Switching Speed** 1/25,000 second

**Operating Modes** Weld and grind

**Sensors** 3

**Weight** 19 oz. (540 g)

**Large 7.1-square-inch viewing area** with wide screen format provides improved visibility.

**Three independent arc sensors** provide dependable arc detection.

**Grind mode** prevents lens from darkening for clear, visible grinding.

**Headgear** provides extensive adjustability settings.

**Analog controls** allow welder to easily adjust shade, sensitivity and delay.

**Helmet accepts magnifying “cheater” lens** (see Accessories on back page).

**Auto-on/off power control** triggers lens at the strike of an arc.

**100% continuous UV and IR protection.**

**Meets ANSI Z87.1-2015, CSA and CE EN379 standards.**
